BRAND PRODUCTS

Quality. Our customers expect it. Alliance & Aloe Care delivers it. From bandages and dressings, to medical gloves and skin care products, Alliance & Aloe Care offer the Canadian health care community a diverse range of quality medical products. Providers in health care facilities across the country strive to deliver the highest level of care to their patients and residents every day. Likewise, Alliance & Aloe Care strive to be health care products of superior quality, products that assist in the delivery of safe, effective and efficient health care. All Alliance & Aloe Care products must meet our own stringent health care standards as well as those of the Canadian medical community. We are committed to quality product selection, and dealing only with world-class manufacturers from across the globe.

BRAND PRODUCTS

At Medline, we are driven to lead our industry with the most cost-effective products and valuable clinical solutions for care providers and those they serve. While improving quality and effectiveness in every area of our operation, innovation is at Medline's core and is fueled by continued investment to our brands. From the revolutionary Fit Right incontinence line, to our portfolio of Advanced Skin and Wound Management products to our global leadership in the exam and surgical glove market,

Medline strives to bring new and leading edge solutions to our customers.

Medline is the largest privately held manufacturer and distributor of healthcare supplies in North America, providing thousands of products that serve the entire continuum of care. Our unique products and programs can be found in most hospitals, long term-care facilities, surgery centers, physician offices, home care agencies and retail outlets.

Founded in 1910, Medline has grown from a small manufacturer of aprons, surgical gowns and uniforms to a thriving \$8.1 billion global enterprise because of our dedicated people, entrepreneurial spirit and honest values.

PRIME VENDORS

Medline | Medical Mart would like to thank our partners for their continuing support and hard work year after year. Together, we have been able to create a catalogue displaying a variety of high quality products at competitive prices. Our partners have worked with us to provide our customers with resources for improving the standard of care for their patients. Thanks to them, we have been able to deliver quality, reliability and value to all the health care professionals we serve.

Medline/ Medical Mart has partnered with Telus to develop one of the most up to date and technically advanced web order systems in the business. Now facilities can log on to their individual account and access information on products or place an order in a quick and effective manner.

- Browse over 5000 supply and equipment items unique to the LTC market
- Access discounted contract pricing on all items
- Place orders 24 hours a day from any location
- E-mail confirmation detailing order, shipping and backorder information
- Order history on-line
- Customizable shopping lists based on your location and sign-in

EDUCATIONAL PROGRAMS & TOOLS

At Medline, we believe that knowledge sharing is vital to helping you provide excellent care. Our experienced clinicians are available to answer your questions, and we offer the following world-class educational programs:

MEDLINE UNIVERSITY®
www.medlineuniversity.com

Empower your staff to deliver high-quality care with Medline University's FREE online education for administrators, nurses and all other levels of staff:

Online interactive courses and competencies

- Podcasts for downloading to your mp3 player
- Downloadable PDF documents
- iPhone® and iPad® app

MU offers over 200 clinical educational courses designed for all levels of healthcare practitioners. The interactive website lets you create accounts, keep track of continuing education progress, upload information about courses you and your staff have taken, print certificates, download staff progress reports, and more!

Enroll for free at

QUALITY ASSURANCE PROGRAM

Continually improve your quality of care with abaqis's customized online education. The

cloud-based abaqis system allows you to easily access and manage custom reports on your QA activities by resident group, facility group or date range.

- The abaqis education can be assigned to staff members based on your actual results.
- The abaqis Readmission Tracker provides tracking, trend analysis and reporting to help post-acute care providers reduce hospital readmissions.

With abaqis, you have the data and tools you need to prioritize your QA efforts and continually improve your quality of care.

To connect with an abaqis specialist in your area, call 1-800-396-6996.
<http://www.medline.ca/programs>

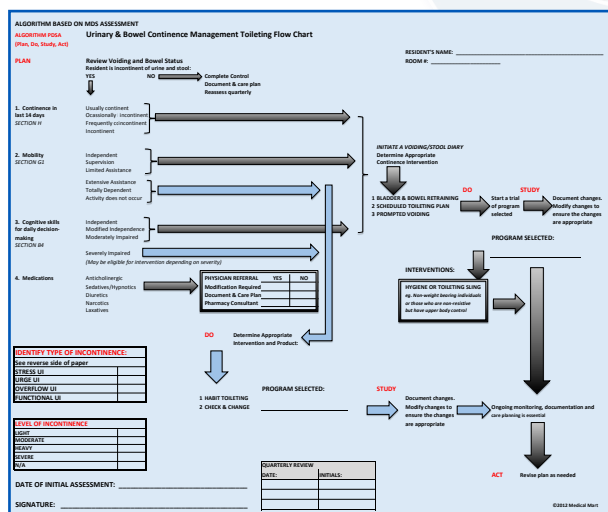

EDUCATIONAL PROGRAMS & TOOLS

Medline/Medical Mart has developed a series of educational DVD programs that targets the front line workers. All programs follow RAO Best Practice Guidelines and comply with the MOH Standards and the Long-Term Care Act. These programs are to assist homes with their own programs focusing on Residents First. They will enable staff with knowledge, training and tools to support them in making quality improvements aimed at enhancing safety and promoting changes that make a positive difference in the well being of your residents.

- Perineal Care
- Preventative Skin Care and Pressure Injuries
- Continence Care and Bowel Management
- Falls and Restraints
- Oral Care
- Catheter Care
- Infusion Therapy Program

Our exclusive algorithm provides caregivers with a resident-centered, individualized toileting plan for each resident who is either continent or incontinent to meet the requirements of the Long Term Care Homes Act under the Continence Management Program.

The information gathered in this document maintains consistency, accuracy, eliminates other documents and saves valuable time for your staff. Your residents will also receive the appropriate treatment necessary for their own restorative care programs.

 211-2202 Blue, With Face Shield Case/4 Box

O2 CURVE® N95+ REUSABLE RESPIRATOR MASK

The new O2 medical elastomeric respirator is designed to reduce the potential for cross-contamination in the medical field through its innovative dual-filter design. Its easy-to-adjust strap ensures a safe and secure face seal, while providing the comfort needed for long-term wear. The respirator can be easily disinfected and sterilized, making it ideal for mass use in the healthcare space.

The new O2 medical elastomeric respirator is different than a standard disposable medical face mask in that it gives complete protection for the wearer and those around them with 98% filtration and complete seal around the facial area. The replaceable disposable filter inside the O2 respirator is designed to remove a high percentage of particles, bacteria and viruses from the air, while the special silicone seal between the respirator and face prevents leakage around the filter. This combination is designed to restrict airborne particles from entering the wearer's nose, mouth and ultimately, lungs

3M QUALITATIVE FIT TEST KIT

3M Respirator Fit Test Kits can be used with any particulate respirator to test face mask to face seal fit. The 3M Fit Test Kit can help satisfy regulatory requirements for face mask fit testing. Available in either a bitter or sweet test solution kit. Simply spray the solution into the hood environment. If the wearer does not detect the test agent's taste, an acceptable respirator fit has been demonstrated. The 3M Respirator Fit Test Kit can fit test approximately 150 employees with the included supplies.

Kit Includes:

- 55mL Sensitivity Solution
- 55mL Fit Test Solution
- Two nebulizers (FT-13)
- One hood (FT-14)
- One collar assembly (FT-15)
- Two sets replacement nebulizer inserts
- Laminated instruction book (English/Spanish/French/Portuguese)

PANDEMIC STORAGE PROGRAM

Medline | Medical Mart can help you by providing the warehouse space to store your pandemic supplies. Products are skidded and stored specifically for your facility with quick and easy access to the product should an outbreak occur. Medline | Medical Mart can store any of the following supplies for your facility:

- Isolation gowns
- Gloves
- Bouffant caps
- Shoe covers
- Face masks

Talk to your Medline | Medical Mart representative today about safeguarding the supplies you'll need in the unfortunate event of a global pandemic. Knowing your stockpile is safe means one less thing to worry about...then you can focus your attention on other important parts of your preparedness plan.

ALOE CARE® 72% ALCOHOL FOAM HAND SANITIZER

An alcohol-based hand rub is the preferred method in many clinical settings simply because it takes less time than washing with soap and water, and is more accessible for both patients and providers. Aloe Care's non-clogging pump bottle and dispenser formats also allow for more hand washes per millilitre and convenient placement options at the point of care. Aloe Care Foaming Alcohol Hand Sanitizer is an advanced formulated hand sanitizer that contains 72% ethyl alcohol to kill 99.99% of many common harmful germs and bacteria. Convenient foam sanitizers are easier to apply, feel softer on the hands and create less mess. Aloe Care Foaming Alcohol Hand Sanitizer contains special conditioners to leave hands moisturized and leaves a pleasant scent on your hands.

Purell® ES® SANITIZER HAND HYGIENE SYSTEMS

Our newest generation of dispensers, PURELL ES® hand hygiene systems, are as durable and reliable as they are beautiful. Choose from manual or touch free options offering our AT-A-GLANCE™ Refill Design which allows you to monitor product levels with just one look to make it quick and easy to see which dispensers need your attention, so they are always serviced and ready. For product refills, choose between PURELL Advanced Hand Rub in gel or foam formulations, which contain 70% ethyl alcohol, and are dye free and fragrance free. All ES PURELL® Hand Sanitizer Dispensers include a SHIELD™ Floor & Wall Protector. Scientifically advanced patent-pending formulation outperforms other hand sanitizers mL for mL¹.

The revolutionary PURELL® ES8 Dispensing System is a revolutionary dispenser design that offers always-ready peace of mind and efficiency. Energy-on-the-refill allows the system to run through a small coin-cell battery that is replaced with every new product refill. Back-up power inside the dispenser provides added assurance of high performance. Optional GOJO SMARTLINK™ plug-in modules let you add intelligent functionality to your dispenser. Track hand hygiene compliance, get service alerts, or add other upgrades as technology evolves to notify you when and where new refills are needed – even more assurance that hand hygiene systems will never be empty.

Purell® ES® HAND HYGIENE SYSTEMS WITH PURELL BRAND HEALTHY SOAP™*

Our newest generation of dispensers, PURELL ES® hand hygiene systems, are as durable and reliable as they are beautiful. Choose from manual or touch free options offering our AT-A-GLANCE™ Refill Design to monitor product levels with just one look to make it quick and easy to see which dispensers need your attention, so they are always serviced and ready. New PURELL HEALTHY SOAP™* products are available in a variety of gentle and effective formulations. Whether you choose between new PURELL HEALTHY SOAP™* Mild Foam, or HEALTHY SOAP™* High-Performance Foam with CLEAN RELEASE™ Technology, you can feel great knowing you're using an effective and trusted product. PURELL HEALTHY SOAP™* with CLEAN RELEASE™ Technology sets a new standard for soap performance. This remarkably mild formulation is gentle on skin, contains no antibacterial ingredients¹ or harsh preservatives, and removes over 99% of dirt and germs.¹⁻³

The revolutionary PURELL ES8 Dispensing System is a revolutionary dispenser design that offers always-ready peace of mind and efficiency. Energy-on-the-refill allows the system to run through a small coin-cell battery that is replaced with every new product refill. Back-up power inside the dispenser provides added assurance of high performance. It offers an optional SMARTLINK™ modules for service alerts, compliance monitoring or other upgrades as technology evolves to notify you when and where new refills are needed – even more assurance that hand hygiene systems will never be empty.

SWEEN® CREAM

Non-occlusive formula, with natural vitamins A & D, soothes red, sore, irritated skin resulting from incontinence, psoriasis, minor skin burns, chafing and itching. Immediately helps restore dry, fragile skin at risk of cracking, especially around contact points like heels and elbows. Also relieves the redness and irritation associated with incontinence.

038-7068	.190g Tube	12/Box

SWEEN 24® SKIN CREAM

Sween® 24 is enriched with three non-occlusive skin conditioners which creates a protective barrier, sealing in moisture while softening and soothing dry skin. It applies easily and absorbs quickly with no sticky or greasy residue. This formula is designed for sensitive skin; alcohol-free, fragrance-free, and lanolin-free.

CERTAINTY™ PERSONAL HYGIENE MEAL TIME WIPES

A disposable Hygiene wipe that offers the ultimate in cleaning convenience. These gentle, alcohol-free wipes will cleanse, moisturize and condition the skin leaving it feeling soft and smooth. They are ideal for cleaning your hands and face after each meal, making them the perfect addition to your dining area. Certainty's™ Hygiene Wipes offer a quick and simple alternative to soap and water.

- Strong Premium Quality Washcloths
- Enriched Moisturizing Formula
- Non-Irritating with added Vitamin E and Aloe
- Fragrance and Alcohol Free Designed For All Skin Types

Infection Control

Single use to prevent the risk of cross contamination.

Centralized Station

Certainty's™ wall mount, table top and floor stand dispensers offer a gentle, quick and convenient alternative to soap and water.

Waste Management

Wipes are dispensed one at a time, reducing waste, overuse and only the wipe used is touched for superior hygiene.

Quick & Easy

Cleaning your hands and face after meals has never been easier. The wipes are easily dispensed with one hand to ensure a quick and simple hygienic cleaning process.

No-Rinse Cleaning

No-rinse cleaning offered from our wipes eliminates the usage of washcloths which can contain harmful bacteria.

Wellness

Promote a wellness program within your facility. Employees, residents and their families will all share in the convenience and benefits.

CATHETER/UROLOGY CARE EDUCATION & SUPPLIES

Medline/Medical Mart has developed a guideline for Catheter Care, which outlines the proper procedure in accordance with current Best Practices.

This program is not intended to be the sole source of information on catheter care but as a resource in conjunction with your physician, nurse practitioner, your homes' policies and procedures and the standards of care set out by the Ministry of Health Long-Term-Care and the College of Nurses.

The Catheter Care DVD & program will help your staff understand the types of catheterization, equipment & supplies, complications, prevention of infection, cleansing, securement devices & documentation. The program also includes a pre & post quiz.

<http://medicalmart.partnerconnects.com>

Medline/ Medical Mart has partnered with Telus to develop one of the most up to date and technically advanced web order systems in the business. Now facilities can log on to their individual account and access information on products or place an order in a quick and effective manner.

- Browse over 5000 supply and equipment items unique to the LTC market
- Access discounted contract pricing on all items
- Place orders 24 hours a day from any location
- E-mail confirmation detailing order, shipping and backorder information
- Order history on-line
- Customizable shopping lists based on your location and sign-in

I.V. EDUCATION BASED ON BEST PRACTICE GUIDELINES

This education will supply staff with knowledge, training and tools to support them with infusion therapy programs.

Content:

- Theory
- Vascular Access Devices
- Anatomy & Physiology
- Infusion Related Complications
- Medication Administration & Devices
- Insertion of Short Peripheral Access Devices
- Continuous & Intermittent Subcutaneous Access
- Central Line Dressing Maintenance
- Documentation & Tools
- Resources
- Tool Kit
- Definitions & Resources

Education to support adult learning and competency retention:

A. Instructive/ Formal Presentation

1. Divided into Modules to clearly, effectively cover key topics
2. Designed for group education
3. Practice sessions support each learning module
4. Interactive & hands-on – simulation tools and props provided

B. Manual

1. Toolkit with checklists to reinforce standard processes
2. Procedures and summary tables
3. Equipment and Supplies knowledge
4. Additional resources and references

C. DVD

1. Interactive DVD with voice over
2. Presented in 10 minute segments
3. View individually or as a group
4. Step by step instructions

Contact your Medline | Medical Mart representative for more information

IV PERIPHERAL INFUSION START-UP KIT

Kit contains the supplies required to initiate a peripheral start-up.

Qty	Description
1	Pre-filled Normal Saline 10 cc Syringe (308-306575)
1	Nexiva Dual Port Closed IV Catheter 24 G (308-383530)
1	3M Tegaderm IV Dressing for Nexiva (355-9525HP)
1	3M SoluPrep 2% CHG, 70% Alcohol Swabsticks (355-S10203)
1	Disposable tourniquet (189-4408)
1	3M Cavilon No Sting Barrier Film Wipe (355-3344E)
2	Sterile Gauze 2 x 2 (211-A2240)
1	Clearlink Continu-Flo Solution Set, 2 inj sites (533-2C8519)
1	Control-a-Flo Regulator (533-2C8891)

204-IVKIT Each

CENTRAL LINE MAINTENANCE DRESSING KIT

Kit contains the supplies required to change the dressing and flush the lumens

Qty	Description
2	Pre-filled Normal Saline 10cc Syringe (308-306575)
2	Q-Syte Split Septum/Needleless connector (308-385100)
1	3M Tegaderm IV Advanced Dressing (8.5 cm x 11.5 cm) (355-1685)
2	3M SoluPrep 2% CHG, 70% Alcohol Swabsticks (355-S10203)
2	Face Mask with earloops (211-P703020)
1	Sterile Drape 18" x 26" (NON21001)
1	3M Cavilon No Sting Barrier Film Wipe (355-3344E)
2	3M Measuring Guide Tape (disposable) (211-116-860)

204-PICCKIT Each

SUBQ (HYPODERMOCLYSIS) START UP

Kit contains the supplies to initiate and maintain subcutaneous hypodermoclysis infusion

Qty	Description
1	BD Saf-T-Intima (24 g) (308-383319)
1	3M Tegaderm IV Dressing for Nexiva (355-9525HP)
1	3M SoluPrep 2% CHG, 70% Alcohol Swabsticks (355-S10203)
1	3M Cavilon No Sting Barrier Film Wipe (355-3344E)
1	Control-a-Flo Regulator (533-2C8891)
1	Clearlink Continu-Flo Solution Set, 2 inj sites (533-2C8519)

204-INFSKIT Each

SUBQ INSERTION KIT (MEDICATION)

Kit contains the supplies to initiate subcutaneous medication infusion

Qty	Description
1	BD Saf-T-Intima (24 g) (308-383319)
1	3M Tegaderm IV Dressing for Nexiva (355-9525HP)
1	3M SoluPrep 2% CHG, 70% Alcohol Swabsticks (355-S10203)
1	3M Cavilon No Sting Barrier Film Wipe (355-3344E)

With 3 ways to activate and a broader range of sizes than most other brands, SurGuard®3 is the industry's most adaptable safety needle. Add separate thumb and finger grips, unequalled sharpness, and competitive pricing, and you'll understand why we say SurGuard®3 is the one needle that fits every clinician's style.

- 3 modes of activation—thumb, finger, or hard surface
- Separate finger/thumb grips with ridges and nonslip surfaces
- Hub and needle locks for security post activation
- Broad range of sizes
- Firm injection feel
- Sharpest needles among major brands tested*
- 10% sharper than similar needles from Becton, Dickinson and Company
- More comfortable injections for patients

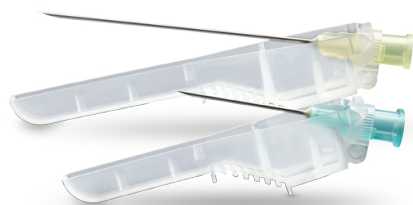

Bottom line: No matter what you're looking for in a needle, you're looking for SurGuard®3.

3mL VanishPoint® Syringe

VanishPoint® and Patient Safe® products provide uncompromising safety for clinicians and patients.

Retractable Technologies, Inc. is the manufacturer of VanishPoint® and Patient Safe® safety products. VanishPoint® products virtually eliminate the risk of contaminated needlestick injuries that can transmit HIV, hepatitis (B and C), and many other infectious bloodborne diseases. Patient Safe® syringes are uniquely designed to reduce the risk of bloodstream infections resulting from catheter hub contamination.

VanishPoint® products feature automated retraction. The needle is retracted directly from the patient into the device. The pre-removal activation virtually eliminates exposure to the contaminated needle, effectively reducing the risk of needle stick injury. Once retracted the VanishPoint® needle is safely enclosed within the syringe barrel and is almost impossible to accidentally or purposely expose it again.

BD AutoShield™ Duo 5 mm

Safety Pen Needle for diabetes treatment

BD AutoShield™ Duo Safety Pen Needle Dual Ended Safety

Before injection
the needle is protected
on the patient end

During injection
the shield retracts

After injection
the needle is protected
on the patient end

When removing
the needle from the pen,
a shield protects the needle
on the pen end

Safer insulin injections through better design

The first safety pen needle on the market with automatic dual protection on both patient and pen ends, the BD AutoShield™ Duo Safety Pen Needle keeps healthcare practitioners, patients and the people around them safe from needlestick injuries. The 5-mm needle length simplifies the injection technique and eliminates the need to lift a skin fold¹ in most cases, a prime source of needlestick injuries.

The BD AutoShield™ Duo Safety Pen Needle marks the new generation of safety pen needles, reflecting our ongoing commitment to improving patients' lives and practitioners' safety.

- Compatible with all leading insulin and GLP-1 pens

Single-use
pen needle

Prevents needle
exposure before
and after use

Reduces the risk
of contamination

Hidden needle may have a
positive impact on injection
treatment acceptance

COAGUCHEK® INR MONITOR

The smart way to test INR

The CoaguChek XS system is a dedicated solution for patients on vitamin K antagonist therapy to monitor their PT/INR values. Using a small drop (8 µl) of capillary blood, it is easy to use and it provides a precise PT/INR result usually in less than 1 minute.

- Saves caregiver time retrieving calls from lab
- No early morning 'wake-up' blood draws for resident
- Finger lance vs painful venous draw
- Improved time in therapeutic range for resident which leads to improved outcomes
- Physicians can adjust their own patient's dosages the day they are on site

CURAD® PAPER SURGICAL ADHESIVE TAPE

- CURAD® paper tape is a gentle, breathable tape for sensitive skin
- Recommended especially for pediatric and geriatric patients
- Flexible and conformable, hypoallergenic
- Adheres well to damp skin
- Not made with natural rubber latex

320-NON270012	1/2" x 10 yard	Box/24
320-NON270001	1" x 10 yard	Box/12
320-NON270002	2" x 10 yard	Box/6
320-NON270003	3" x 10 yard	Box/4

CURAD® TRANSPARENT SURGICAL ADHESIVE TAPE

- CURAD® transparent tape is a breathable perforated plastic tape that permits skin examination without tape removal
- Provides a clean and easy bilateral tear
- Excellent tape to hold facial dressings or for IV sites and tubing retention
- Not made with natural rubber latex

320-NON270212	1/2" x 10 yard	Box/24
320-NON270201	1" x 10 yard	Box/12
320-NON270202	2" x 10 yard	Box/6

CURAD® CLOTH SILK SURGICAL ADHESIVE TAPE

- CURAD® cloth silk-like tape is water repellent and easy to tear
- With its strong woven construction it's ideal for affixing dressings
- Not made with natural rubber latex
- Hypoallergenic

320-NON270112	1/2" x 10 yard	Box/24
320-NON270101	1" x 10 yard	Box/12
320-NON270102	2" x 10 yard	Box/6

CURAD® ELASTIC ADHESIVE TAPE

- These white cotton elastic bandages feature a strong rubber-based adhesive that allows wearers to have joint flexibility without loosening them
- They are ideal for dynamic/pressure dressings requiring elasticity
- Mold to body contours for compression without restriction

320-NON260401	1" x 5 yard	Box/12
320-NON260402	2" x 5 yard	Box/6
320-NON260403	3" x 5 yard	Box/4

3M MICROPORE™ PAPER TAPE

A latex-free, hypoallergenic paper tape that is gentle to the skin yet adheres well and leaves minimal adhesive residue upon removal. An economical, general purpose, breathable surgical tape

355-1530-1/2	1/2" x 10yd	24/Box
355-1530-1	1" x 10yd	12/Box
355-1530-2	2" x 10yd	6/Box

3M TRANSPORE™ TRANSPARENT TAPE

A latex-free, hypoallergenic, transparent and perforated plastic tape that offers strong adhesion. Transpore tape is easy to tear into very thin strips, and is easy to use even with gloves.

355-1527-1/2	1/2" x 10yd	24/Box
355-1527-1	1" x 10yd	12/Box
355-1527-2	2" x 10yd	6/Box

3M BLENDERM™ TRANSPARENT TAPE

A latex-free, hypoallergenic, occlusive and transparent plastic tape. This flexible medical tape is designed to provide a barrier from external fluids and contamination.

355-1525-1	1" x 5yd	12/Box
355-1525-2	2" x 5yd	6/Box

3M KIND REMOVAL SILICONE TAPE

Softer and more conformable than traditional adhesives, works differently with skin and hair. Can be removed with minimal stripping of skin cells or pulling of hair. Constant adhesive strength for as long as it's left in place, unlike traditional tape that increases adhesion over time.

355-2770-1	1" x 5.5 Yard	12/Box
355-2770-2	2" x 5.5 Yard	6/Box

ADHESIVE REMOVER, PREPS & SOLUTION

Removes tape and sticky residue

MEDFIX® SOFT CLOTH DRESSING RETENTION TAPE

- For flexibility and customized sizing.
- Low sensitivity adhesive, gentle for the patient
- Medfix™ has a printed S-curve release liner
- Water resistant
- Indications: to secure primary dressings and to secure gastrostomy tubes and other feeding tubes
- Contraindicated as a primary dressing
- May be left in place for up to 7 days
- Dressing change frequency will depend on amount of drainage

320-MSC4002	5cm x 10 Meter	Each
320-MSC4004	10cm x 10 Meter	Each
320-MSC4006	15cm x 10 Meter	Each

MEDFIX® SOFT CLOTH EZ DRESSING RETENTION TAPE

- Low sensitivity adhesive, gentle for the patient
- Medfix™ EZ is linerless with 2" perforations
- Water resistant
- Indications: to secure primary dressings and to secure gastrostomy tubes and other feeding tubes
- Contraindicated as a primary dressing
- May be left in place for up to 7 days
- Dressing change frequency will depend on amount of drainage

320-MSC4102	5cm x 10 Meter	Each
320-MSC4124	10cm x 1.8 Meter	12/Box
320-MSC4104	10cm x 10 Meter	Each
320-MSC4106	15cm x 10 Meter	Each

GENTAC® SILICONE DRESSING FIXATION TAPE

- Soft silicone adhesive ideal for fixation on fragile skin
- Gentle for patient
- Cut to size needed; easy to apply
- Waterproof
- Indications: to secure primary or secondary dressings and to secure gastrostomy tubes and other feeding tubes
- Contraindicated as a primary dressing
- May be left in place for up to 7 days; dressing change frequency will depend on amount of drainage

320-MSC1583	2cm x 3 Meter	12/Box
320-MSC1585	5cm x 3 Meter	6/Box

MEFIX® TAPE

Mefix tape by Molnlycke can be used in a wide variety of situations where fixation is required, including fixation of dressings, swabs, catheters, and tubes. The porous structure of the non-woven fabric ensures air and water vapor permeability. The fabric is flexible, conforms well to body contours and allows body movements when in place. The fabric is non-absorbent and provides a barrier for blood and fluid strike-through.

173-310250	2.5cm x 10m	Each
173-310500	5cm x 10m	Each
173-311000	10cm x 10m	Each
173-311500-30	15cm x 10m	Each
173-312000	20cm x 10m	Each

HYPAFIX® TAPE

A cross-elastic non-woven tape that provides light compression. Excellent for areas requiring flexibility and freedom from constraint while providing superior holding power. Air and exudate permeable. Hypoallergenic.

127-7144300	2.5cm x 10m	Each
127-7144301	5cm x 10m	Each
127-7144302	10cm x 10m	Each
127-7144303	15cm x 10m	Each
127-7144304	20cm x 10m	Each

3M SOFT CLOTH ON A LINER

The same soft, latex-free, hypoallergenic, conformable tape as standard Medipore tape. Gentle enough for at-risk skin yet strong enough for critical securement, this tape features an s-slit liner with a printed grid and can be easily cut to a desired size.

355-2762	5cm x 9.1m	Each
355-2764	10cm x 9.1m	Each

3M MEDIPORE-H™ SOFT CLOTH TAPE

Soft, gentle and conformable tape, offering enhanced gentleness and stronger adhesion for challenging tape applications while being easy to use and easy on the skin. Ideal for anchoring post-surgical dressings where swelling is expected.

355-2861	2.5cm x 9.1m	2/Package
355-2862	5cm x 9.1m	Each
355-2863	7.5cm x 9.1m	Each

MEDIGRIP® ELASTIC TUBULAR BANDAGE (TUBIGRIP EQUIVALENT)

- Provides excellent support for joints and good for securing dressings
- Easy to apply and reapply
- Can be used as mild compression when doubled
- Indications: edema, treatment of chronic venous insufficiency, dislocations, sprains and hypertrophic scarring
- Available in a latex free version by adding "LF" to any of the codes
- Size A - 1-3/4"W (4.5 cm), for infant feet and arms
- Size B - 2-1/2"W (6.3 cm), for small hands and limbs
- Size C - 2-5/8"W (6.8 cm), for adult hands, arms or legs
- Size D - 3"W (7.5 cm), for large arms or legs
- Size E - 3-1/2"W (8.75 cm), for legs or small thighs
- Size F - 4"W (10 cm), for large knees or thighs
- Size G - 4-3/4"W (12 cm), for large thighs.

ACCUWRAP TWO-LAYER COMPRESSION SYSTEM

- Advanced, two-layer compression system provides support and compression to feet and legs, while fitting comfortably under clothing and footwear.
- Layer 1 is a soft absorbent padding
- Layer 2 is a short stretch compression layer that provides adaptive compression. Printed accuracy indicator clearly shows the right level of stretch during application
- Both layers are not made with natural rubber latex and bond together when applied which keeps the system in place
- Educational packaging to aid the caregiver in proper application
- Patient information card included to improve compliance

Skin Health Education Program

Become a Skin Health Partner and gain access to education, tools and resources on Skin and Wound Care.

Built on Best Practice Recommendations from Wounds Canada and provincial nursing guidelines, the Skin Health program reinforces evidence-based practice in Long Term Care that will assist your facility in meeting MOH standards.

Clinical Support Specialists deliver customized education for Registered Staff and PSWs, reinforcing evidence-based practice. We are here to meet you virtually through Zoom!

Topics include:

- Wound Assessment and Documentation
- Pressure Injury Prevention and Management
- Diabetic Foot Ulcer
- Venous and Arterial Wounds
- Skin Tear Prevention and Management
- Skin Care
- Prevention and Management of Moisture Associated Skin Damage

Additional tools and support:

- **Canadian E-learning courses now available through Surge Learning and Medline University**
- 1-on-1 coaching sessions to support the educational needs of facility wound care nurses
- Clinical decision making tools and algorithms
- Wound identification guides

Make skin health second nature

SUREPREP RAPID DRY NO STING BARRIER PROTECTANT

- SurePrep® Rapid Dry barrier film dries within 30 seconds
- Non-stinging, non-cytotoxic, equal to 3M Cavilon
- Provide protection for up to 72 hours
- Alcohol free for enhanced patient comfort
- Transparency allows for continuous visibility when assessing skin
- Extends wear time of dressings by improving adherence
- Use to protect damaged or intact skin from: Moisture Associated Skin Damage (MASD), friction and shear, and adhesive trauma

SUREPREP® SKIN PROTECTANT WIPE

- Sureprep® is an alcohol-based fast drying skin protectant.
- Vapor permeable and delivers protection from friction and incontinence.
- The transparent barrier may be used on periwound, peristomal or areas that come in contact with bodily fluids.
- Frequency of application should be at each dressing change or 24-72 hours depending on frequency of incontinence.

320-MSC1500	Sureprep® Wipes.....	50/Box
-------------------	----------------------	--------

MARATHON® LIQUID SKIN PROTECTANT

- Robust, flexible and long-lasting cyanoacrylate protectant
- Protects from the effects of friction
- Protects from moisture (urine, exudate, sweat, and other bodily fluids) that can cause maceration
- Can be used on intact or damaged skin
- Fast drying and breathable
- Marathon shows greater protective capabilities than 3M® Cavilon® against corrosive fluids (synthetic urine) and wash-off*
- Indications: damaged skin, fragile skin, periwound skin and peristomal skin
- Contraindicated for second or third degree burns, infected areas and directly to the wound bed or to deep puncture wounds.
- Change frequency is up to 3 days, reapply as needed

SKIN TEAR KITS

Provides turnkey wound care solution

- Along with gloves and saline, staff can simply select the appropriate kit based on skin tear type to provide patient care

Enables simple and consistent care, following ISTAP guidelines

- Step-by-step instructions on every kit, with a visual representation of each skin tear type on the packaging for quick reference

Facilitates easy documentation for prevalence data collection

- Peel-off sticker for charting, including the date and caregiver initials

Type 1

- Designed for skin tears where the skin flap is present and complete approximation is possible.
- Kit contains Marathon Liquid Skin Protectant to secure the flap to the wound edges.
- Marathon also protects the wound so no cover dressing is required—allowing care givers to see the wound.

320-DYNDW1B	Skin Tear Wound Kit Type 1 Wound	Each
-------------------	--	------

Type 2

- For skin tears where there is partial flap loss
- Kit contains Optifoam Gentle silicone foam dressing to cover and protect the wound
- The gentle silicone contact layer protects the newly healing skin from damage on dressing change

320-DYNDW2DRYB.....	Skin Tear Wound Kit Type 2 Dry Wound	Each
---------------------	--	------

Type 2/3

- For skin tears with partial or total flap loss and moderate to heavy fluid present
- Kit contains Optifoam Gentle silicone foam dressing and Opticell gelling fibre
- Opticell with chitosan technology helps absorb fluid and stop minor bleeding

320-DYNDW2-3MB	Skin Tear Wound Kit Type 2-3 Wet Wound	Each
----------------------	--	------

CAVILON™ NO STING BARRIER FILM

A sting-free, alcohol-free liquid barrier film that dries quickly to form a breathable, transparent coating on the skin. Designed to help protect intact or damaged skin from urine, feces, other body fluids, tape trauma, and friction

OPTIFOAM® GENTLE AG ANTIMICROBIAL, SILVER FOAM DRESSING, SILICONE FACED FOAM

- Foam dressing with silicone for gentle adhesion and easy placement
- Ionic silver provides an antimicrobial barrier¹ and continuous antimicrobial protection
- Low friction and shear outer layer

320-MSC9544EP 10cm x 10cm 10/Box
 320-MSC9566EP 15cm x 15cm 10/Box

OPTIFOAM® GENTLE AG ANTIMICROBIAL SILVER FOAM DRESSING, SILICONE FACED FOAM & SILICONE ADHESIVE BORDER

- Silicone provides gentle adhesion and can be lifted and reapplied
- Highly conformable¹ foam dressing with a superabsorbent core that absorbs exudate, converts it to a gel and locks it away
- Moisture vapor transmission rate (MVTR) adjusts to fluid level Ionic silver provides an antimicrobial barrier
- Low friction and shear outer layer is waterproof to protect the wound and help keep bacteria out

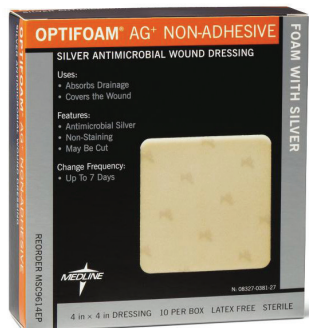

320-MSC9644EP 10cm x 10cm 10/Box
 320-MSC9666EP 15cm x 15cm 10/Box

OPTIFOAM® AG ANTIMICROBIAL SILVER FOAM DRESSINGS

- Highly absorbent, conformable dressing provides continuous antimicrobial protection
- Moisture vapor transmission rate (MVTR) adjusts to fluid level to increase breathability
- Supplied in Educational Packaging that focuses on patient safety and correct product application

320-MSC9614EP Non-Adhesive, 10cm x 10cm 10/Box
 320-MSC9604EP Adhesive, 10cm x 10cm 10/Box
 320-MSC9606EP Adhesive, 15.2cm x 14.2cm, Sacral 10/Box

OPTIFOAM® NON-ADHESIVE DRESSINGS

- Highly absorbent dressings provide exceptional fluid handling with a variety of applications
- Moisture vapor transmission rate (MVTR) adjusts to fluid level to increase breathability
- Waterproof outer layer protects wound and keeps bacteria out

320-MSC1244EP 10cm x 10cm 10/Box

320-MSC1266EP 15cm x 15cm 10/Box

OPTIFOAM® ADHESIVE DRESSINGS

- An all-in-one dressing for fluid handling helps create an ideal healing environment
- Moisture vapor transmission rate (MVTR) adjusts to fluid level to increase breathability
- Waterproof outer layer protects wound and keeps bacteria out

320-MSC1044EP 10cm x 10cm 10/Box

320-MSC1066EP 15cm x 15cm 10/Box

320-MSC1065EP 15.5cm x 14.2cm, Sacral 10/Box

OPTIFOAM® NON-ADHESIVE FOAM HEEL WOUND DRESSING

- Optifoam® Heel absorbs moderate to heavy drainage
- Moisture vapor transmission rate (MVTR) adjusts to fluid level
- Waterproof outer layer protects wound and keeps bacteria out

320-MSC1200B Heel Shaped, Silicone Adhesive 10/Box

320-MSC1200EP Heel Shaped 5/Box

IOPLEX IODOPHOR FOAM DRESSINGS

- Antibacterial iodine with controlled release technology
- Hydrophilic highly absorbent foam effectively removes exudate and debris
- Color changes from black to white as the iodine is released
- Can be cut to shape of wound and stacked
- Easy to apply and remove

320-MSC5345EP 10cm x 12cm 8/Box

OPTICELL® GELLING FIBER WOUND DRESSING

- Feature chitosan-based Chytoform Technology that allows the absorbent fibers of the dressing to transform into a clear and conformable gel
- Gelling action helps manage drainage and remove dead, damaged and infected tissue from the wound, trapping it for later removal at the dressing change
- Indicated for use to control minor bleeding
- Ideal for partial- and full-thickness wounds of all drainage levels
- Up to a seven-day wear time

320-MSC7822EP 5cm x 5cm 10/Box

320-MSC7844EP 10cm x 10cm 10/Box

320-MSC7866EP 15cm x 15cm 5/Box

320-MSC7818R 1.9cm x 45.7cm, Reinforced Ribbon 5/Box

OPTICELL® AG+ GELLING FIBER WOUND DRESSING WITH SILVER

- Feature Chitosan-based Cytoform Technology that allows the absorbent fibers of the dressing to transform into a clear and conformable gel
- The unique gelling action helps manage drainage and remove dead, damaged and infected tissue from the wound, trapping it for later removal at the dressing change
- Ionic silver provides broad spectrum antibacterial protection
- Ideal for partial- and full-thickness wounds of all drainage levels
- Up to a seven-day wear time

320-MSC9822EP 5cm x 5cm 10/Box

320-MSC9845EP 10cm x 12cm 10/Box

320-MSC9866EP 15cm x 15cm 5/Box

320-MSC9818R 1.9cm x 30.5cm, Reinforced Ribbon 5/Box

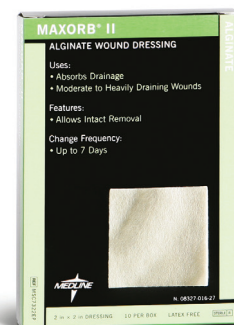

MAXORB® II 100% ALGINATE DRESSINGS

- 100% calcium alginate with superior absorption is ideal for moderate to heavily draining partial- and full-thickness wounds
- Wick fluid vertically to help prevent periwound skin maceration
- Available in a 30cm ribbon for filling moderate to heavily draining wounds and in sheet form for shallow moderate to heavily draining wounds.

320-MSC7322EP	5cm x 5cm	10/Box
320-MSC7344EP	10cm x 10cm	10/Box
320-MSC7366EP	15cm x 15cm	5/Box
320-MSC7312EP	2.5cm x 30.5cm, Ribbon	10/Box
320-MSC7318EP	2.5cm x 45.7cm	10/Box

MAXORB® ES ALGINATE REINFORCED RIBBON DRESSING

- Maxorb® ES Ribbon is a reinforced CMC / Alginate dressing ideal for filling moderate to heavily draining partial and full thickness wounds.
- Easy one-piece and residue-free removal.
- Ideal when you need a dressing with the strength to stand up to a tunneling wound.

320-MSC7918EP	1.9cm x 45.7cm, Ribbon	5/Box
---------------	------------------------	-------

MAXORB® II AG+ SILVER ALGINATE REINFORCED RIBBON DRESSING

Maxorb®II Ag+ Ribbon is a reinforced antimicrobial alginate dressing ideal for filling moderate to heavily draining partial- and full-thickness wounds at risk for infection. Broad spectrum antimicrobial silver technology helps manage the bioburden present in the wound environment to aid in the healing process

- Designed for one-piece and residue-free removal
- Ideal when you need a dressing with the strength to stand up to a tunneling wound

320-MSC9918EP	2.5cm x 45.7cm, Ribbon	5/Box
---------------	------------------------	-------

MAXORB® II AG+ & SILVER ALGINATE DRESSINGS

- Moisture management for challenging wounds
- Ultra-absorptive, 100% calcium alginate creates an optimal moist wound healing environment by managing drainage and protecting periwound skin from maceration
- Wet-strength integrity designed for easy, 1-piece removal without leaving residual fibers in the wound
- For moderate to heavily exuding partial- to full-thickness wounds, post-operative wounds, trauma wounds, ulcers (leg, pressure, diabetic), graft and donor sites, and 1st and 2nd degree burns
- Ionic silver provides broad spectrum antibacterial protection

320-MSC9922EP	5cm x 5cm	10/Box
320-MSC9945EP	10cm x 10cm	10/Box
320-MSC9948EP	10cm x 20cm	5/Box
320-MSC9966EP	15cm x 15cm	5/Box
320-MSC9912EP	2.5cm x 30.5cm, Ribbon	5/Box
320-MSC9918EP	2.5cm x 45.7cm	5/Box

EXUDERM® LP LOW-PROFILE HYDROCOLLOID WOUND DRESSINGS

- Protective, translucent barrier allows wound observation
- Low profile to help improve conformability and reduce the risk of dressing edges rolling up
- Help facilitate local wound healing in a moist healing environment
- Smooth backing is low friction for longer wear

320-MSC5100	10cm x 10cm, Thin	10/Box
320-MSC5125	15cm x 15cm, Thin	5/Box

EXUDERM® HYDROCOLLOID WOUND DRESSING

- Exuderm hydrocolloid wound dressing is ideal for wounds with light to moderate drainage
- Protective, translucent barrier allows for wound observation
- Low profile, tapered edge to help improve conformability and reduce the risk of dressing edges rolling up
- Help facilitate local wound healing in a moist healing environment
- Smooth, satin backing is low friction for longer wear

320-MSC5422	5cm x 5cm	20/Box
320-MSC5444	10cm x 10cm	10/Box
320-MSC5466	15cm x 15cm	5/Box
320-MSC5470	10cm x 9cm, Sacral	10/Box
320-MSC5475	16cm x 16.5cm, Sacral	5/Box

EXUDERM® ODORSHIELD HYDROCOLLOID WOUND DRESSING

- Exuderm odorshield sacral dressings are ideal for shallow sacral wounds with minimal drainage
- Protective, translucent barrier allows wound observation
- Contains cyclodextrins to absorb and control odor
- Low profile, tapered edge to help improve conformability and reduce the risk of dressing edges rolling up
- Help facilitate local wound healing in a moist healing environment

320-MSC5522	5cm x 5cm	10/Box
320-MSC5544	10cm x 10cm	10/Box
320-MSC5566	15cm x 15cm	5/Box
320-MSC5570	10cm x 9cm, Sacral	10/Box
320-MSC5575	16cm x 16.5cm, Sacral	5/Box

VERSATEL® SILICONE CONTACT LAYER

- Silicone-based atraumatic adhesive helps reduce potential trauma from secondary dressing wound adherence and minimizes pain during removal
- Channels allow fluid to easily transfer to an absorbent dressing
- Translucent for easy wound visualization

320-MSC1723EP	5cm x 7.5cm	10/Box
320-MSC1734EP	7.5cm x 10cm	10/Box
320-MSC1747EP	10cm x 17.5cm	10/Box
320-MSC17812EP	20cm x 30cm	5/Box

VERSATEL ONE® SILICONE CONTACT LAYER DRESSING

- One-sided contact layer dressing coated with silicone
- Allows easy application by preventing gloves and scissors from sticking to the dressing
- Adheres gently to skin but won't stick to moist wound beds, prevents pain during removal
- Channels allow exudate to transfer vertically into a secondary dressing¹ and aid delivery of topical treatments
- Thin and flexible dressings conform to body contours for a comfortable yet secure seal that minimizes periwound maceration

320-MSC1823EP	5cm x 7.5cm	10/Box
320-MSC1834EP	7.5cm x 10cm	10/Box
320-MSC1845EP	10cm x 12.5cm	10/Box
320-MSC1847EP	10cm x 17.5cm	10/Box
320-MSC18812EP	20cm x 30cm	5/Box

THERAHONEY®

- TheraHoney® is indicated for use on wounds with no drainage to moderate drainage
- Manuka honey is derived from the pollen and nectar of the *Leptospermum scoparium* plant
- The honey comb is used only one time, and once harvested, the honey is carefully filtered, irradiated and tested in a laboratory
- High sugar levels (87%) in TheraHoney result in osmotic pressure that help promote autolytic debridement of necrotic tissue, a moist wound healing environment, and helps rapidly reduce wound odor
- Recommended for use on partial- and full-thickness wounds, leg ulcers, pressure injuries, first- and second-degree burns, diabetic foot ulcers, surgical wounds and trauma wounds under the supervision of a healthcare professional, and minor abrasions, lacerations, cuts, scalds and burns

320-MNK0005	14.2 Gram Tube Gel	10/Box
320-MNK0015	42.5 Gram Tube Gel	12/Box
320-MNK0077	10cm x 12cm Sheet	10/Box

SKINTEGRITY® HYDROGEL

- Ideal for dry-to-moist clean wounds
- Donates moisture to create an optimal moist wound healing environment
- Contains glycerin as a humectant to remain moist and viscous and aloe
- Easily irrigated from the wound at dressing change
- Available in squeezable bellows bottle for convenient, targeted application

320-MSC6102	29.5 Gram Bellows Bottle	30/Case
320-MSC6104	118mL Tube	Each
320-MSC6104	118mL Tube	12/Case

SKINTEGRITY® HYDROGEL IMPREGNATED GAUZE

- Hydrogel is compression saturated onto gauze sponges, ensuring thorough coverage.
- Special hydrogel formulation, with added aloe, balances viscosity and hydration.
- Unfolded gauze sponges easily conform to deep or tunneling wounds

320-MSC6022	4cm x 5cm, 12-Ply	50/Case
320-MSC6044	10cm x 10cm, 12-Ply	30/Case

PLUROGEL® BURN AND WOUND DRESSING

- PluroGel® is a unique burn and wound dressing that is 100% water-soluble, bio-compatible, cell-friendly, and non-ionic
- It aids in the creation of an optimal moist wound healing environment that helps to protect healthy tissue and soften wound debris
- Softer wound debris rinses off more easily at dressing change, creating a positive dressing change experience
- PluroGel maintains its consistency, enabling it to remain on the wound bed for better protection

320-PGL020	20 gram Tube	Each
320-PGL050	50 gram Jar	Each
320-PGL050TUBE	50 gram Tube	Each

AG+ SILVER POWDER

- The powder formula delivers controlled-release antimicrobial silver ions to fight antibiotic-resistant bacteria in deep, hard-to-treat wounds of any size or shape
- Extended wear time of up to five days makes it ideal for individuals who experience pain during dressing changes
- Nonstaining

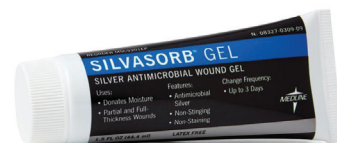

320-MSC9405	5 Gram Bottle	Each
320-MSC9405	5 Gram Bottle	5/Box
320-MSC9410	10 Gram Bottle	Each
320-MSC9410	10 Gram Bottle	5/Box

SILVASORB® ANTIMICROBIAL SILVER HYDROGEL

- For lightly draining wounds in need of an antimicrobial barrier
- Gel with ionic silver technology for sustained antimicrobial protection
- Advanced fluid handling capable of donating or absorbing moisture
- Nonstaining and gentle to healthy tissue
- Viscous formulation remains in place in the wound up to three days
- Contraindications: individuals with a known sensitivity to silver
- Sheets may be left in place for up to 7 days; Amorphous gel may be left in place for up to 3 days
- Dressing change frequency will depend on amount of drainage;
Dressing change frequency will depend on amount of drainage

320-MSC9301EP	45mL Tube	Each or 12/Box
320-MSC9303EP	89mL Tube	Each or 12/Case
320-MSC9308EP	236mL Tube	Each or 6/Case

SILVASORB® ANTIMICROBIAL SILVER HYDROGEL SHEET

- For flat wounds with no to moderate drainage
- Helps manage bacterial burden; Continuous antimicrobial protection; Non-staining; Gentle for the patient; Advanced fluid management; Extended wear time
- Indications: pressure injuries, partial and full-thickness wounds, leg ulcers, diabetic foot ulcers, graft wounds and donor sites, skin tears, surgical wounds, lacerations and abrasions, and first and second-degree burns
- Contraindications: individuals with a known sensitivity to silver
- Sheets may be left in place for up to 7 days
- Dressing change frequency will depend on amount of drainage

320-MSC9344EP	10.8cm x 10.8cm	5/Box
---------------	-----------------	-------

OPTILOCK® NON-ADHERENT SUPER ABSORBENT POLYMER DRESSING

- Super-absorbent polymer core locks in drainage under compression
- Efficient and versatile dressing can handle large quantities of fluid and minimal drainage while delivering optimal performance
- Protects skin from maceration that prevents the skin from healing properly
- Nonadherent wound contact layer for easy removal

320-MSC6433EP	7.5cm x 7.5cm	10/Box
320-MSC6444EP	10cm x 10cm	10/Box
320-MSC6455EP	12.5cm x 14cm	10/Box

DRIGO-HP™ ANTIBACTERIAL WICKING SHEET

- Wicking action to transfer moisture away from the skin fold, keeping area dry
- Polyester fabric treated with hydrogen peroxide reducing bacterial populations
- Smooth textile helps reduce skin to skin friction
- Helps prevent the source of odor within the skin fold
- Indications: skin-to-skin contact areas such as skin folds
- Contraindicated for patient with known allergy to hydrogen peroxide
- Change frequency is up to 5 days, reapply dependent on soiling, odor, amount of moisture and condition of the skin

320-MSCWH219	1 Roll, 25.4cm x 365.76cm	Each & 10/Case
320-MSCWH219S	1 Sheet, 25.4cm x 91.44cm	10/Bag
320-MSCWH219WH	Wall Holder Unit for DriGo-HP and DriGo Rolls	Each

ULTRASORBS® SKINFOLD MOISTURE ABSORBENT DRY SHEETS

- Designed to absorb skinfold moisture and keep it away from the skin where it may affect skin integrity
- Soft outer fabric layer on both sides wicks away fluid from the skin and locks it into the double thick superabsorbent polymer core
- Change once a day or when sheet becomes wet
- Each sheet measures 14" x 6" and should not be cut
- One sheet holds 8 oz. of liquid

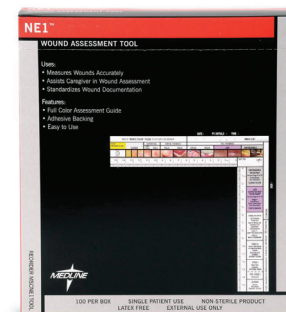

320-MSC10614	14" x 6"	10/Box
--------------	----------	--------

NE1® WOUND ASSESSMENT TOOL

- NE1™ Wound Assessment Tool helps reduce errors and promotes accurate wound assessment
- Standardizes wound documentation, which can be used for administrative review and can be of assistance in potential litigation¹.
- Drives appropriate reimbursement due to more accurate wound assessments
- Horizontal and vertical rulers provide consistent, precise wound measurements in cm and mm
- Clear, point-of-care instructions and use tips
- Full-color wound guide helps increase assessment validity
- Captures clinician's signature, date and patient data
- Adhesive back gently holds the disposable, single-use tool in place.

320-MSCNE1TOOLPK. 10/Pkg

PROPHASE® WOUND CLEANSER

- Prophase™ wound cleanser is a non-toxic, non-sensitizing wound cleanser that is non-irritating to the skin
- Contains PHMB as a preservative, well-known for its broad spectrum antimicrobial/antiseptic properties with no known resistances¹
- Low pH formulation
- Contains cocamidopropyl betaine, a gentle and effective surfactant
- Prophase is meant to cleanse, moisten and aid in debridement
- Offered in an 236mL spray bottle that will allow for an ideal level of spray pressure (AHRQ guidelines), as well as a 60mL squeeze bottle
- Indications: acute and chronic dermal lesions; stage I-IV pressure injuries; venous ulcers; leg ulcers; diabetic foot ulcers; post-surgical wounds; first and second degree burns; grafted and donor sites

320-MSC8002. 60mL Bottle 12/Case

320-MSC8008. 236mL Bottle 6/Case

SKINTEGRITY® WOUND CLEANSER

- Specially formulated to allow fast, thorough and gentle cleansing of wounds in all stages.
- Choose mist or stream delivery to loosen and remove protein and wound debris with a non-ionic surfactant.
- Non-cytotoxic.
- Trigger sprayer delivers a PSI of 8.6 at 3" spraying distance which falls within AHCPR guidelines of 4 to 15 PSI.

320-MSC6001. 30mL Spray Bottle 30/Case

320-MSC6008. 236mL Spray Bottle Each & 6/Case

320-MSC6016. 473mL Spray Bottle Each & 6/Case

TEGADERM™ FOAM NON-ADHESIVE DRESSING

3M™ Tegaderm™ Foam Dressing is indicated for use as a primary or secondary dressing for low to highly-exuding partial and full thickness wounds.

355-90600	5cm x 5cm	10/Box
355-90604	9cm x 9cm	10/Box
355-90601	10cm x 10cm	10/Box
355-90602	10cm x 20cm	5/Box
355-90603	20cm x 20cm	5/Box
355-90605	10cm x 60cm	Roll

TEGADERM™ FOAM ADHESIVE DRESSING

Adhesive border dressing with four unique foam layers to deliver exceptional fluid handling and helps create the optimal moist healing environment for low to high-exuding wounds. The dressing incorporates the patented spoke design to deliver easy, one-handed application

355-90610	8.8cm x 8.8cm, Square	10/Box
355-90611	10cm x 11cm, Oval	10/Box
355-90612	14cm x 14cm, Square	10/Box
355-90613	14cm x 15cm, Oval	5/Box
355-90616	19cm x 22cm, Oval	5/Box
355-90619	14cm x 14cm, Heel	5/Box

TEGADERM™ FOAM ADHESIVE DRESSING MINI

High Performance Foam Adhesive Dressing, Mini Oval design for toes, feet, noses, chins & elbows. Total fluid management plus moist skin adherence. Mini wrap, highly conformable foam dressing in a convenient wrap around size.

355-90614	Mini Oval 6.9cm x 7.6cm	10/Box
355-90615	Mini Wrap 6.9cm x 6.9cm	10/Box

TEGADERM™ SILICONE FOAM NON-BORDER DRESSING

Gentle, absorbent and secure, 3M™ Tegaderm™ Silicone Foam Dressings effectively handle low to high exuding wounds. The unique multi-layer design provides high absorbency and minimizes moisture to maintain an optimal wound healing environment.

355-90631	10cm x 11cm	10/Box
355-90632	15cm x 15cm	10/Box

TEGADERM™ SILICONE FOAM BORDER DRESSING

Silicone adhesive border dressing with four unique foam layers to deliver exceptional fluid handling and helps create the optimal moist healing environment for low to high-exuding wounds. Soft silicone adhesive for atraumatic removal

355-90643	5cm x 5cm	10/Box
355-90640	7.5cm x 7.5cm	10/Box
355-90641	10cm x 10cm	10/Box
355-90642	15cm x 15cm	10/Box
355-90646	15cm x 15cm, Heel	5/Box
355-90647	15cm x 17cm, Sacral	10/Box
355-90648	18.5cm x 22cm, Sacral	5/Box

TEGADERM™ ABSORBENT CLEAR ACRYLIC DRESSING

Features a unique clear acrylic polymer and allows for easy wound monitoring without changing the dressing. It is ideal for low to moderately exuding wounds including skin tears, pressure ulcers, abrasions, post-operative wounds and donor sites.

355-90800	7.6cm x 9.5cm, Oval	5/Box
355-90801	11.1cm x 12.7cm, Oval	5/Box
355-90802	14.9cm x 15.2cm	5/Box
355-90803	14.2cm x 15.8cm, Oval	5/Box
355-90805	20cm x 20.3cm	5/Box
355-90807	16cm x 19cm, Sacral	5/Box

TEGADERM™ AG MESH DRESSING WITH SILVER DRESSING

Fast-acting, long-lasting antimicrobial silver dressing in an affordable mesh design.

355-90500-HC	5cm x 5cm	5/Box
355-90501	10cm x 12cm	5/Box
355-90502-HC	10cm x 20cm	5/Box
355-90503-HC	20cm x 20cm	3/Box

TEGADERM™ HIGH GELLING ALGINATE DRESSING

Sterile, highly conformable absorbent primary wound dressing for moderate to heavily exudating wounds.

355-90212	10cm x 10cm	10/Box
355-90220	30cm rope	5/Box

TEGADERM™ HIGH INTEGRITY ALGINATE DRESSING

Sterile, highly conformable absorbent primary wound dressing for moderate to heavily exudating wounds. Designed to maintain integrity when saturated for easy removal.

355-90110	5cm x 5cm	10/Box
355-90112	10cm x 10cm	10/Box
355-90114	10cm x 20cm	5/Box
355-90120	30cm rope	5/Box

TEGADERM™ ALGINATE AG SILVER DRESSING DRESSING

Provides antimicrobial silver, soft-gelling absorbency and fiber strength for management of critically colonized wounds or wounds at increased risk of infection.

355-90301	5cm x 5cm	10/Box
355-90303	10cm x 12cm	10/Box
355-90307	2.5cm x 30cm	5/Box

TEGADERM™ HYDROGEL 15 GRAM

An amorphous hydrogel, formulated to provide a moist wound healing environment

355-91110	15 Gram	Each
-----------	---------	------

TEGADERM™ TRANSPARENT FILM DRESSING

Waterproof, latex-free, sterile, transparent film dressings designed for protecting skin and wound sites.

355-1622W 4.4cm x 4.4cm 100/Box	355-1628 15cm x 20cm 10/Box
355-1624W 6cm x 7cm 100/Box	355-1629 20cm x 30cm 10/Box
355-1626W 10cm x 12cm 50/Box	355-1630 10cm x 11cm Oval 50/Box
355-1627 10cm x 25cm 20/Box	355-1635 8.5cm x 10.5cm 50/Box

TEGADERM™ TRANSPARENT FILM ROLL

A non-sterile version of Tegaderm™ Transparent Film that allows for maximum versatility as it can easily be cut to size.

355-16002 5cm x 10m 1 Rolls/Box
355-16004 10cm x 10m 1 Rolls/Box
355-16006 15cm x 10m 1 Rolls/Box

TEGADERM™ HP TRANSPARENT FILM DRESSING

Waterproof, latex-free transparent film dressing with extra holding power to hold securely even in the presence of moisture.

355-9534HP 6cm x 7cm 100/Box
355-9536HP 10cm x 12cm 50/Box
355-9546HP 10cm x 11.5cm Oval 50/Box

TEGADERM™ HYDROCOLLOID THIN DRESSING

Thin, absorbent, and comfortable. Highly conformable dressing combines the excellent moisture vapour permeability of a transparent film dressing with the absorbency and conformability of a unique hydrocolloid adhesive.

355-90021 7cm x 9cm, Oval 10/Box
355-90022 10cm x 10cm 5/Box
355-90023 10cm x 12cm, Oval 10/Box

TEGADERM™ HYDROCOLLOID DRESSING

Highly conformable dressing that combines the excellent moisture vapour permeability of a transparent film dressing with the absorbency and conformability of a unique hydrocolloid adhesive.

355-90001 7cm x 9cm, Oval 5/Box
355-90002 10cm x 10cm 5/Box
355-90003 10cm x 12cm, Oval 5/Box
355-90004 14cm x 17cm, Oval 3/Box
355-90005 15cm x 15cm 3/Box
355-90007 13.9cm x 12.3cm, Sacral 6/Box

TEGADERM™ NON-ADHERENT CONTACT LAYER

Tegaderm™ Contact Layer is a woven nylon fabric with sealed edges that is a lint-free, non-adherent, non-toxic, non-irritating, and hypoallergenic material.

355-5642-HC	7.5cm x 10cm	10/Box
355-5643-HC	7.5cm x 20cm	10/Box
355-5644-HC	20cm x 25cm	5/Box

COBAN 2™ LAYER COMPRESSION SYSTEM

A low-profile, comfortable compression system that goes on in just 2 easy steps.

Coban 2-Layer System

355-2094N	10cm x 2.7m	Each
355-20096	15cm x 3.5m	Each

Coban Lite 2-Layer System

355-2794N	10cm x 2.7cm	Each
-----------	--------------	------

TEGADERM™+ PAD DRESSING

Waterproof, sterile, all-in-one dressing with non-adherent absorbent pad. Ideal for surgical wounds and small incisions or wounds.

355-3582	5cm x 7cm	50/Box
355-3584	6cm x 10cm	50/Box
355-3586	9cm x 10cm	25/Box
355-3587	8cm x 11cm	25/Box
355-3589	9cm x 15cm	25/Box
355-3590	9cm x 20cm	25/Box
355-3591	9cm x 25cm	25/Box
355-3593	9cm x 35cm	25/Box
355-3588	15cm x 15cm	25/Box

MEDIPORE™ + PAD DRESSING

Soft, conformable, all-in-one sterile dressing with non-adherent absorbent pad. Ideal for surgical wounds and small incisions or wounds.

355-3562	5cm x 7cm	50/Box
355-3564	6cm x 10cm	50/Box
355-3566	9cm x 10cm	25/Box
355-3569	9cm x 15cm	25/Box
355-3570	9cm x 20cm	25/Box
355-3571	9cm x 25cm	25/Box
355-3573	9cm x 35cm	25/Box

ALLEVYN® NON ADHESIVE FOAM DRESSING

ALLEVYN Non-Adhesive is a non-adhesive foam dressing indicated for the management by secondary intention on chronic and acute, full thickness, partial thickness, shallow granulating, exuding wounds such as pressure ulcers, leg ulcers, infected wounds, diabetic foot ulcers, malignant wounds, surgical wounds, first and second degree burns, donor sites, and fungating ulcers. ALLEVYN Heel contributes to a pressure relieving protocol when used in conjunction with pressure relieving devices.

EXU-DRY® ANTI-SHEAR WOUND DRESSING

EXU-DRY is a specialty absorptive, anti-shear wound dressing indicated in the management of superficial to full thickness wounds including ulcers (venous, arterial, diabetic), pressure sores, donor sites, surgical incisions and excisions, skin grafts, bio-engineered skin substitutes, burns, draining wounds, moist skin desquamation, fungating neoplasms, chemotherapy extravasation, Kaposi's sarcoma, lymphoedema, graft versus host disease, dermatological wounds, and skin sloughing disorders.

368-5999004120	10cm x 15cm	10/bx
368-5999006	15cm x 23cm	12/bx
368-5999009	23cm x 38cm	30/bx

PICO® 7 SINGLE USE NEGATIVE PRESSURE WOUND THERAPY WITH SOFT PORT

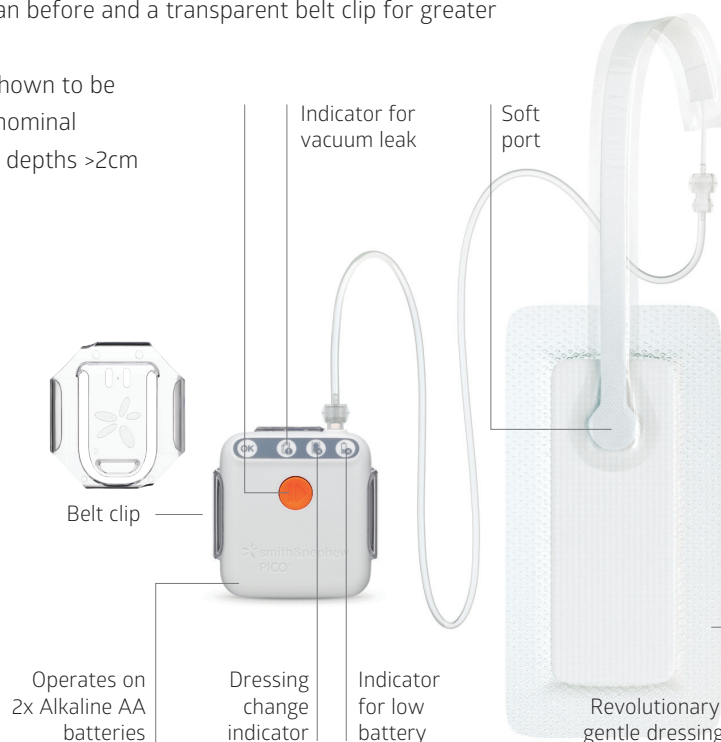

Improved Device Performance - Enhanced management of air leaks helping to support healthcare professionals in delivering negative pressure and could potentially be used in problematic 'hard to seal' awkward areas.^{1,2}

Improved Ease of Use - The user interface with a 'dressing full' indicator, optimising dressing changes and an area to write start date of therapy, helping with healthcare protocols.

Improved Patient Quality of Life - An even quieter pump than before and a transparent belt clip for greater portability.^{3,4}

New Deeper Wound Indication - PICO 7 dressing has been shown to be capable of managing low to moderate exudate, and deliver nominal -80mmHg therapeutic negative pressure in large wounds of depths >2cm (when used with an appropriate NPWT filler).

173-294400	20cm x 20cm	5/Box

MEPILEX® HEEL FOAM DRESSING

Mepilex is a soft and highly conformable foam dressing that absorbs exudate and maintains a moist wound environment. The Safetac layer seals the wound edges, preventing the exudate to leak onto the surrounding skin, thus minimising the risk for maceration. The Safetac layer ensures that the dressing can be changed without damaging the wound or surrounding skin or exposing the patient to additional pain.

173-288100.....	13cm x 20cm.....	5/Box
173-288300.....	15cm x 22cm.....	5/Box

MEPILEX® XT FOAM DRESSING

Mepilex XT absorbs more exudate faster than other foam dressings. Via unique exudate channels, it absorbs highly viscous fluid, drawing it away from the wound bed. Dressings using Safetac technology are clinically proven to minimize damage to the wound and pain to the patient.

173-382490	23cm x 23cm Sacrum	5/Box

MEPILEX® AG SILVER HEEL FOAM DRESSING

Mepilex Heel Ag is a soft and highly conformable antimicrobial foam dressing for your heel. It absorbs exudate and maintains a moist wound environment. The Safetac layer seals the wound edges, preventing the exudate to leak onto the surrounding skin, thus minimising the risk for maceration. The Safetac layer ensures that the dressing can be changed without damaging the wound or surrounding skin or exposing the patient to additional pain.

173-388100-00	13cm x 20cm	5/Box
173-388300-00	15cm x 22cm	5/Box

MEPILEX® TRANSFER

Mepilex Transfer is thin and comfortable. Transfers exudate away from wound to minimize the risk of maceration.

173-294600	7.5cm x 8.5cm	5/Box
173-294700	10cm x 12cm	5/Box
173-294800	15cm x 20cm	5/Box
173-294502	20cm x 50cm	4/Box

MEPILEX® TRANSFER AG SILVER DRESSING

Mepilex® Transfer Ag with Safetac® is a "multi-benefit" transfer dressing designed for low to high exuding wounds and with the patient as a central mind. Safetac is clinically proven to minimize stress and pain for the patient. Mepilex Transfer Ag effectively transfers exudate to a 2nd layer whilst preventing microbial growth.

173-394000	7.5cm x 8.5cm	10/Box
173-394100	10cm x 12.5cm	5/Box
173-394700	12.5cm x 12.5cm	5/Box
173-394800	15cm x 20cm	10/Box

MELGISORB® PLUS ALGINATE

Melgisorb Plus is a highly absorbent calcium alginate dressing.

173-252000	5cm x 5cm	10/Box
173-252200	10cm x 10cm	10/Box
173-252500	10cm x 20cm	10/Box
173-253500	3cm x 45cm, Rope	5/Box

MELGISORB AG SILVER ALGINATE

All the properties of Melgisorb with bacteria reducing powers of silver.

173-256055	5cm x 5cm	10/Box
173-256105	10cm x 10cm	10/Box
173-256155	15cm x 15cm	10/Box
173-256605	3cm x 44cm, Rope	10/Box

MEPORE® FIXATION DRESSING

Upgraded adhesive, rounded corners for better fixation and increased absorption capacity.

173-670800	6cm x 7cm	60/Box
173-670900	9cm x 10cm	50/Box
173-671000	9cm x 15cm	50/Box
173-671100	9cm x 20cm	30/Box

MEPORE® PRO FIXATION DRESSING

All the benefits of Mepore, plus a waterproof, bacteria proof, breathable film outer layer.

173-670820	6cm x 7cm	60/Box
173-670920	9cm x 10cm	40/Box
173-671020	9cm x 15cm	40/Box
173-671120	9cm x 20cm	30/Box
173-671220	9cm x 25cm	30/Box
173-671320	9cm x 30cm	30/Box

MEPORE® PLASTER

- Easy-to-remove protection paper for ease of use
- Soft, elastic non-woven with high breathability for better patient comfort

173-331900-04	4cm x 5m	1/Box
173-332000-04	7cm x 5m	1/Box

MEPIFORM®

Self-adherent, soft silicone dressing for the management of hypertrophic & keloid scars.

173-293100	4cm x 30cm	5/Box
173-293200	5cm x 7.5cm	5/Box
173-293400	10cm x 18cm	5/Box

BIATAIN® FOAM NON ADHESIVE DRESSING

Biatain™ Non-Adhesive Foam Dressings are made up of a unique 3-D polymer that provides superior exudate management.

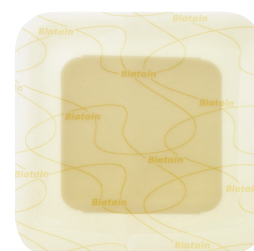

038-6105	5cm x 7cm	10/Box
038-3410	10cm x 10cm	10/Box
038-3412	10cm x 20cm	5/Box
038-3413	15cm x 15cm	5/Box
038-3416	20cm x 20cm	5/Box

BIATAIN® FOAM ADHESIVE DRESSING

Super-absorbent foam dressing for exuding wounds. Adhesive dressing has a hydrocolloid adhesive border.

038-3462	7.5cm x 7.5cm	10/Box
038-3430	10cm x 10cm	10/Box
038-3420	12cm x 12cm	10/Box

BIATAIN® FOAM HEEL & SACRAL DRESSING

Biatain foam dressing with adhesive border for secure fit to heel and sacral areas

038-3483	17cm x 17cm Sacral	5/Box
038-3485	23cm x 23cm Sacral	5/Box
038-3488	19cm x 20cm Heel Dressing	5/Box

BIATAIN® IBU FOAM DRESSING

Biatain - IBU® combines the excellent exudate management capacity of Biatain foam dressings with a continuous release of ibuprofen.

038-4110	10cm x 10cm	5/Box
038-4112	10cm x 20cm	5/Box
038-4115	15cm x 15cm	5/Box
038-4120	20cm x 20cm	5/Box

BIATAIN® SOFT HOLD & BIATAIN IBU® SOFT HOLD FOAM DRESSING

Biatain® Soft-Hold and Biatain IBU® Soft Hold is a Biatain non-adhesive foam dressing with a soft, skin friendly adherent layer.

Soft Hold

038-3470	10cm x 10cm	5/Box
038-3472	10cm x 20cm	5/Box
038-3475	15cm x 15cm	5/Box

IBU Soft Hold

038-4140	10cm x 10cm	5/Box
038-4142	10cm x 20cm	5/Box

BIATAIN® SILICONE FOAM DRESSING

Biatain® Silicone dressings combine the superior absorbency of Biatain foam with a soft, silicone adhesive border.

038-33434	7.5cm x 7.5cm	10/Box
038-33435	10cm x 10cm	10/Box
038-33436	12.5cm x 12.5cm	10/Box
038-33437	15cm x 15cm	5/Box
038-33438	17.5cm x 17.5cm	5/Box
038-33404	15cm x 19cm Sacral	5/Box
038-33405	25cm x 25cm Sacral	5/Box
038-33406	18cm x 18cm Hell	5/Box

BIATAIN® SILICONE LITE FOAM DRESSING

Biatain® Silicone Lite – same effective healing, more mobility. Our silicone dressings are very flexible, creating a perfect fit anywhere on the body.

038-33452	5cm x 5cm	5/Box
038-33453	5cm x 12.5cm	5/Box
038-33444	7.5cm x 7.5cm	10/Box
038-33445	10cm x 10cm	10/Box
038-33446	12.5cm x 12.5cm	10/Box

BIATAIN® SILICONE AG ANTIMICROBIAL SILVER FOAM DRESSING

Biatain Ag® dressings combine superior exudate management with sustained antimicrobial activity for improved patient outcomes.

Sustained release of silver assures fast and effective kill against bacterial strains known to be detrimental to wound healing such as pseudomonas aeruginosa, staphylococcus aureus and B-haemolytic streptococcus.

038-39636	7.5cm x 7.5cm	5/Box
038-39637	10cm x 10cm	5/Box
038-39638	12.5cm x 12.5cm	5/Box
038-39639	15cm x 15cm	5/Box
038-39640	17.5cm x 17.5cm	5/Box

BIATAIN® AG ANTIMICROBIAL SILVER FOAM DRESSING

Biatain® AG is a family of antimicrobial foam and hydrocolloid dressings using advanced moist wound healing technologies with silver as the active component.

038-5105	Non adhesive 5cm x 7cm	5/Box
038-9622	Non adhesive 10cm x 10cm	5/Box
038-9623	Non adhesive 10cmx20cm	5/Box
038-9625	Non adhesive 15cm x 15cm	5/Box
038-9626	Non adhesive 20cmx20cm	5/Box
038-9631	Adhesive 7.5cm x 7.5cm	5/Box
038-9632	Adhesive 12.5cm x 12.5cm	5/Box
038-9635	Adhesive 18cm x 18cm	5/Box
038-9641	Adhesive 23cm x 23cm Sacral	5/Box
038-9643	Adhesive 19cmx20cm Heel	5/Box

BIATAIN® ALGINATE DRESSING

Biatain® alginate dressing is a highly absorbent, fiber-free dressing that forms a soft and protecting gel - ideal for highly exudating wounds.

038-3705	5cm x 5cm	30/Box
038-3710	10cm x 10cm	10/Box
038-3715	15cm x 15cm	10/Box
038-3740	2.5cm x 44cm, Rope	6/Box

BIATAIN® AG SILVER ALGINATE DRESSING

Biatain® Ag alginate dressing with silver is a unique mix of high G (guluronic acid) and highly absorbent carboxymethylcellulose (CMC) with the addition of an ionic silver complex, which releases silver ions in the presence of wound exudate. As exudate is absorbed, the dressing forms a soft, cohesive gel that intimately conforms to the wound surface.

038-3755	5cm x 5cm	30/Box
038-3760	10cm x 10cm	10/Box
038-3780	44cm, Rope	10/Box

INTERDRY® AG TEXTILE WITH ANTIMICROBIAL SILVER COMPLEX

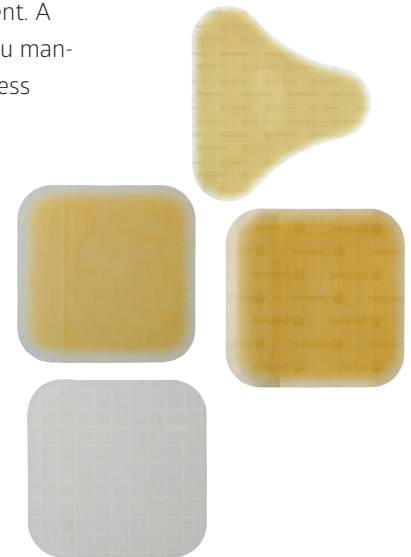

038-7915	10" x 18"	Each
038-7912	10" x 36"	Each
038-7912	10" x 36"	10/Box
038-7910	10" x 144"	Each
038-7910	10" x 144"	10/Box

COMFEEL® PLUS HYDROCOLLOIDS

Combines the benefits of a see-through hydrocolloid dressing and superior exudate management. A breakthrough in hydrocolloid technology means unsurpassed absorptive capacity that helps you manage low-exudate wounds better than ever. Unique, adaptable polyurethane top film allows excess moisture to evaporate while maintaining the proper moist healing environment.

038-33146	4cm x 6cm, Regular	30/Box
038-33110	10cm x 10cm, Regular	10/Box
038-33115	15cm x 15cm, Regular	5/Box
038-33120	20cm x 20cm, Regular	5/Box
038-33285	17cm x 17cm, Sacral, Regular	5/Box
038-33530	5cm x 7cm, Transparent	10/Box
038-33547	5cm x 15cm, Transparent	10/Box
038-33533	10cm x 10cm, Transparent	10/Box
038-33536	9cm x 14cm, Transparent	10/Box
038-33539	15cm x 15cm, Transparent	5/Box

SEA-CLENS® WOUND CLEANSER

Sea-Cleans® is a cost effective, saline-based wound cleanser designed to loosen debris from the wound bed without interfering with the healing process

038-1063	178mL	Each
038-1061	355mL	Each

PURILON® HYDROGEL

Purilon® Gel is primarily intended for the treatment of necrotic and sloughy wounds, e.g. leg ulcers, pressure ulcers and diabetic foot ulcers.

038-3906	8gr	10/Box
038-3900	15gr	10/Box

WOUN'DRESS® COLLAGEN HYDROGEL

Woun'Dress® Collagen Hydrogel promotes autolytic debridement by rehydrating and softening dry wounds and necrotic tissue. Hydrogels provide a moist environment facilitating optimal wound healing.

038-1166	28g Tube	Each
038-7690	84g Tube	Each

TRIAD® HYDROPHILIC WOUND DRESSING

Triad® Hydrophilic Wound Dressing absorbs excess wound exudate while retaining a moist wound environment. Can be utilized when conventional dressings are not feasible. Zinc oxide-based hydrophilic paste gently adheres to moist wound beds. Protects peri-wound skin.

038-1964	71g Tube	Each
038-1967	170g Tube	Each

PROMOGRAN PRISMA™ WOUND BALANCING MATRIX

PROMOGRAN PRISMA™ Wound Balancing Matrix is comprised of 44% oxidized regenerated cellulose (ORC), 55% collagen and 1% silver-ORC in a sterile, freeze dried composite.

315-PS2028	28cm ²	10/Box
315-PS2123	123cm ²	10/Box

PROMOGRAN™ PROTEASE MODULATING MATRIX

PROMOGRAN PRISMA™ Protease Modulating Matrix is comprised of 45% oxidized regenerated cellulose (ORC) and 55% collagen in sterile, freeze dried composite.

315-M772028	28cm ²	10/Box
315-M772123	123cm ²	10/Box

SILVERCEL™ HYDRO ALGINATE DRESSING

SILVERCEL™ Hydro-Alginate is a sterile, non-woven pad composed of a high G (guluronic acid) alginate, carboxymethylcellulose (CMC) and silver coated nylon fibres.

315-CAD050	5cm x 5cm	10/Box
315-CAD011	11cm x 11cm	10/Box
315-CAD020	10cm x 20cm	5/Box
315-CAD230	2.5cm x 30.5cm Rope	5/Box

SILVERCEL™ NON-ADHERENT HYDRO ALGINATE DRESSING

SILVERCEL™ Non-Adherent Hydro-Alginate Antimicrobial Dressing with Silver with EasyLIFT™ Precision Film Technology is a non-woven pad composed of alginate, carboxymethylcellulose (CMC) and silver coated nylon fibres, with a non-adherent wound contact layer.

315-CAD7050	5cm x 5cm	10/Box
315-CAD7011	11cm x 11cm	10/Box
315-CAD7020	10cm x 20cm	5/Box
315-CAD7230	2.5cm x 30.5cm Rope	5/Box

ADAPTIC™ NON-ADHERENT DRESSING

ADAPTIC™ Non-Adhering Dressing is a primary dressing made of knitted cellulose acetate mesh, impregnated with a formulated petrolatum emulsion.

315-2012	7.6cm x 7.6cm	50/Box
315-2013	7.6cm x 20cm	3 x 36/Box
315-2015	7.6cm x 20cm	24/Box
315-2014	7.6cm x 40cm	36/Box
315-2019	12.7cm x 22.9cm	12/Box

ADAPTIC TOUCH™ SILICONE DRESSING

ADAPTIC TOUCH™ Non-Adhering Silicone Dressing is a flexible, open-mesh silicone wound contact layer designed to optimise fluid management and minimise pain at dressing change.

315-TCH501	5cm x 7.6cm	10/Box
315-TCH502	11cm x 7.6cm	10/Box
315-TCH503	12.7cm x 15cm	10/Box
315-TCH504	20cm x 32cm	5/Box

ADAPTIC™ DIGIT DRESSING

ADAPTIC™ DIGIT Non-Adhering Digit Dressing is made of a unique, tacky, silicone-coated fabric covered with a tubular bandage. It is specifically designed for dressing fingers and toes

315-MAD003	2cm Small Finger	10/Box
315-MAD013	2.4cm Medium Finger	10/Box
315-MAD023	2.8cm Large Finger	10/Box
315-MAD042	3cm X-Large Finger	10/Box
315-MAD062	2.8cm Toe	10/Box

TIELLE™ NON-ADHESIVE HYDROPOLYMER DRESSING

TIELLE™ Non-Adhesive Hydropolymer Dressing with LiquaLock™ Advanced Absorption Technology is a cuttable polyurethane foam dressing for low to highly exuding wounds.

315-TLN0505EN	5cm x 5cm	10/box
315-TLN1010EN	10cm x 10cm	10/box
315-TLN1515EN	15cm x 15cm	10/box
315-TLN1717EN	17cm x 17cm	5/box
315-TLN2122EN	21cm x 22cm	5/box

TIELLE™ & TIELLE™ PLUS HYDROPOLYMER DRESSING

TIELLE™ are a range of hydropolymer foam dressings with LiquaLock™ Advanced Absorption Technology. They are designed to manage different levels of exudate across a range of wound types and they come in a wide selection of shapes and sizes with an adhesive border.

TIELLE™

315-MTL100	7cm x 9cm	10/Box
315-MTL101EN	11cm x 11cm	10/Box
315-MTL105	15cm x 15cm	10/Box
315-MTL102	15cm x 20cm	5/Box
315-MTL103	18cm x 18cm	5/Box
315-MTL104	18cm x 18cm Sacrum	5/Box

TIELLE™ Plus

315-MTP501	11cm x 11cm	10/Box
315-MTP505	15cm x 15cm	10/Box
315-MTP506	15cm x 15cm Sacrum	10/Box
315-MTP502	15cm x 20cm	5/Box
315-MTP508	20cm x 26.5cm Heel	5/Box

TIELLE™ SILICONE BORDER HYDROPOLYMER DRESSING WITH SILICONE WITH LIQUALOCK™ TECHNOLOGY

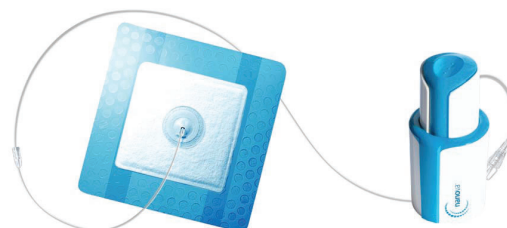

TIELLE™ Silicone Border hydropolymer dressing with silicone is a soft, conformable wound dressing. The unique combination of LiquaLock™ Technology and soft silicone adhesive minimizes the risk of leakage and maceration, and allows for gentle removal.

315-TLSB0709EN	7cm x 9cm	10/Box
315-TLSB1010EN	10cm x 11cm	10/Box
315-TLSB1212EN	12.5cm x 12.5cm	10/Box
315-TLSB1717EN	17.5cm x 17.5cm	5/Box
315-TLSB2122N	21cm x 22cm	5/Box

NANOVA™ THERAPY SYSTEM

The NANOVA™ Therapy System is a compact, manually activated single-patient use Therapy Unit that is coupled to an absorptive Dressing to form a Negative Pressure Wound Therapy System suitable for use on shallow-cavity chronic and acute wounds. The Nanova™ Therapy Unit has been designed with both care giver and patient in mind.

- Manual priming – no complicated training required.
- 1–3 compressions of the pump delivers regulated negative pressure that can be re-primed at any time.
- Once activated, negative pressure is maintained at -125 mmHg.
- Single-patient use Therapy Unit can be used with multiple dressings as required for up to 30 days.
- Silent, light-weight and small; can easily be carried in a pocket.

315-NANTU/R6	Therapy System	Each
--------------	----------------	------

NANOVA™ THERAPY DRESSING

The NANOVA™ Dressing delivers negative pressure to the wound bed whilst absorbing and locking away wound exudate. The dressing has a silicone wound contact layer that is designed to be non-adherent. The adhesive border features DermaTac™ Protective Seal Technology, this a hybrid material combining silicone and acrylic adhesives that provide an effective seal for negative pressure, yet enables easy repositioning or removal minimising trauma to the peri-wound skin.

- Wound fluid is locked within the core of the dressing to help minimise the potential for maceration.
- Continues to absorb exudates if negative pressure is lost.
- Dressing may be placed in any orientation without compromising absorptive capacity or the delivery of negative pressure.

315-NANGFS/R6.S	Small, 18cm x 14cm	3/Box
315-NANGFM/R6	Medium, 18cm x 18cm	3/Box
315-NANGFL/R6	Large, 18cm x 28cm	3/Box

FIBRACOL™ PLUS COLLAGEN WOUND DRESSING WITH ALGINATE

FIBRACOL™ Plus Collagen Wound Dressing with Alginate is a soft, absorbent, and conformable wound dressing composed of 90% collagen and 10% calcium alginate.

315-PC2981	5cm x 5cm	12/Box
315-2982	10cm x 11cm	12/Box
315-2983	10cm x 22cm	6/Box
315-2984	1cm x 40cm Rope	6/Box

NU-GEL™ HYDROGEL WITH ALGINATE

NU-GEL™ Hydrogel with Alginate is a transparent hydro active amorphous gel containing sodium alginate that gently and effectively debrides necrotic tissue and fibrinous slough.

315-MNG415	15g	10/Box
315-MNG425	25g	6/Box

NU-DERM™ ALGINATE WOUND DRESSING

NU-DERM™ Alginate Wound Dressing is a sterile, non-woven pad consisting of high G (guluronic acid) alginate and carboxymethylcellulose (CMC) fibre.

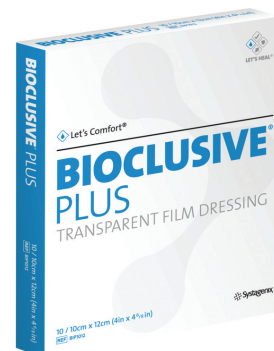

315-AWD112	2.5cm x 30cm Rope	5/Box
315-AWD202	5cm x 5cm	10/Box
315-AWD404	10cm x 10cm	10/Box
315-AWD408	10cm x 20cm	5/Box

BIOCLUSIVE™ PLUS TRANSPARENT FILM DRESSING

BIOCLUSIVE™ Plus Transparent Film Dressing is a self-adhesive dressing consisting of a transparent semi-permeable polyurethane film coated with an acrylic adhesive.

315-BIP0607	6cm x 7cm	1500/Box
315-BIP1012	10cm x 12cm	600/Box

BIOSORB™ GELLING FIBRE DRESSING

BIOSORB™ Gelling Fibre Dressing is a soft, conformable non-woven dressing made from sodium carboxymethyl cellulose (CMC) and strengthening cellulose fibres. It is intended for use in the management of moderate to heavily exuding acute or chronic wounds.

315-BGF0505	5cm x 5cm	10/Box
315-BGF1010	10cm x 11cm	10/Box
315-BGF1515	15cm x 15cm	5/Box
315-BGF0245	2cm x 45cm (rope)	5/Box

ACTISORB™ SILVER 220 DRESSING

ACTISORB™ Silver 220 Activated Charcoal Dressing with Silver is an activated charcoal dressing with silver, enclosed in a non-adherent nylon sleeve.

315-MAS065	6.5cm x 9.5cm	10/Box
315-MAS105	10.5cm x 10.5cm	10/Box
315-MAS190	19cm x 10.5cm	10/Box

INADINE™ POVIDONE IODINE NON-ADHERENT DRESSING

Inadine™ PVP-I Non-Adherent Dressing consists of a low adherent knitted viscose fabric impregnated with a polyethylene glycol (PEG) base containing 10% Povidone Iodine; equivalent to 1.0% available iodine.

315-P01481	5cm x 5cm	25/Box
315-P01512	9.5cm x 9.5cm	25/Box

DUODERM® CGF HYDROCOLLOID DRESSING

DuoDERM® CGF® dressing is a hydrocolloid, moisture-retentive wound dressing used for partial and full-thickness wounds with exudate. It incorporates a unique ConvaTec hydrocolloid formulation that distinguishes it from other hydrocolloid dressings. DuoDERM® CGF® dressing is indicated for use on dermal ulcers including full-thickness wounds, pressure ulcers (Stage II-IV), leg ulcers, superficial wounds, partial thickness burns and donor sites.

739-187660	10cm x 10cm	5/Box
739-187658	10cm x 10cm	20/Box
739-187661	14cm x 14cm	5/Box
739-187659	14cm x 14cm	20/Box
739-187662	20cm x 20cm	5/Box

DUODERM® EXTRA-THIN CGF HYDROCOLLOID DRESSING

DuoDERM® extra thin dressing is a hydrocolloid dressing indicated for the management of lightly exuding wounds. It combines a unique ConvaTec hydrocolloid formulation that distinguishes it from other hydrocolloid dressings and a vapour-permeable outer film to provide an occlusive moist environment.

739-187901	7.5cm x 7.5cm	20/Box
739-187900	5cm x 10cm	20/Box
739-187961	5cm x 20cm	10/Box
739-187955	10cm x 10cm	10/Box
739-187902	10cm x 15cm, Oval	10/Box
739-187957	14cm x 14cm	10/Box
739-187903	15cm x 18cm Triangle	10/Box

DUODERM® BORDER HYDROCOLLOID DRESSING

DuoDERM® CGF® border dressing incorporates a unique ConvaTec hydrocolloid formulation that distinguishes it from other hydrocolloid dressings. It can be used for 'hard-to-dress' areas. The dressing features a wide outer foam border that does not require additional taping. DuoDERM® CGF® border dressing is indicated for use on dermal ulcers including full-thickness wounds, pressure ulcers (Stage II-IV), leg ulcers, superficial wounds, partial thickness burns and donor sites.

739-187970	6cm x 6cm	5/Box
739-187971	10cm x 10cm	5/Box
739-187972	14cm x 14cm	5/Box
739-187973	15cm x 18cm, Triangle	5/Box
739-187974	20cm x 22cm Sacral	5/Box

DUODERM® HYDROACTIVE DRESSING

DuoDERM® Sterile Hydroactive® dressing is the original DuoDERM® dressing designed for the management of partial and full-thickness pressure sores and leg ulcers. It incorporates a unique ConvaTec hydrocolloid formulation that distinguishes it from other hydrocolloid dressings.

739-187611	10cm x 10cm	20/Box
------------	-------------	--------

DUODERM® HYDROACTIVE GEL

DuoDERM® Hydroactive® Sterile Gel is a clear, preservative-free, viscous hydrogel that incorporates a unique ConvaTec hydrocolloid formulation that distinguishes it from other hydrocolloid dressings.

739-187990	15g Tube	10/Box
739-187987	30g Tube	3/Box

DUODERM® SIGNAL HYDROCOLLOID DRESSING

The adhesive hydrocolloid matrix and the outer film on DuoDERM Signal® dressing is permeable by moisture vapour and provides an occlusive barrier against bacteria, viruses, dirt and water. DuoDERM Signal® Dressing is indicated for the management of lightly to moderately exuding wounds.

739-403326	Square 10cm x 10cm	5/Box
739-403327	Square 14cm x 14cm	5/Box
739-410510	Oval 10cm x 17.5cm	5/Box
739-403332	Triangle 15cm x 18cm	5/Box
739-403333	Triangle 20cm x 23cm	5/Box
739-410501	Sacral 20cm x 23cm	5/Box
739-410500	Heel 18cm x 19cm	5/Box

KALTOSTAT® ALGINATE DRESSINGS

KALTOSTAT® calcium sodium alginate dressing is indicated for moderately to highly exuding chronic and acute wounds and for wounds with minor bleeding.

739-168210	Square 5cm x 5cm	10/Box
739-168212	Rectangular 7cm x 12cm	10/Box
739-168214	Rectangular 10cm x 20cm	10/Box
739-168117	Rope 2cm x 45cm	5/Box

CARBOFLEX® ODOR CONTROL DRESSING

CarboFLEX® dressing is a sterile, non-adhesive dressing. It is a five layer dressing specifically designed to address the management problems associated with malodorous wounds.

739-403202	Square 10cm x 10cm	10/Box
739-403204	Rectangle 15cm x 20cm	5/Box

SUREPRESS® COMPRESSION BANDAGE & PADDING

SurePress® high compression bandage is an elastic wrap that provides sustained graduated compression in an easy to use format. It is indicated for the management of venous leg ulcers and associated conditions. It can be used alone or in combination with SurePress® absorbent padding.

739-650947	Surepress compression bandage 10cm x 3m	Each
739-650948	Surepress absorbent padding 10cm x 3m	6/Bag

AQUACEL® HYDROFIBER DRESSING

AQUACEL® dressing incorporating unique Hydrofiber® technology is a versatile primary wound dressing indicated for use on moderate to highly exuding chronic and acute wounds. Aquacel AG® features ionic silver technology.

Aquacel

739-177901	5cm x 5cm	10/Box
739-177902	10cm x 10cm	10/Box
739-177903	15cm x 15cm	5/Box
739-420127	1cm x 45cm, Ribbon	5/Box
739-403770	2cm x 45cm, Ribbon	5/Box

Aquacel AG®

739-403706	5cm x 5cm	10/Box
739-403708	10cm x 10cm	10/Box
739-403710	15cm x 15cm	5/Box
739-403711	20cm x 30cm	5/Box
739-420128	1cm x 45cm, Ribbon	5/Box
739-403771	2cm x 45cm, Ribbon	5/Box

AQUACEL® EXTRA HYDROFIBER DRESSING

This conformable and highly absorbent dressing absorbs wound fluid and creates a soft cohesive gel, maintains a moist environment which supports the body's healing process and aids in the removal of necrotic material from the wound (autolytic debridement) without damaging newly formed tissue.

739-420675	5cm x 5cm	10/Box
739-420676	10cm x 10cm	10/Box
739-420678	15cm x 15cm	5/Box
739-420679	20cm x 30cm	5/Box

AQUACEL® AG PLUS EXTRA HYDROFIBER DRESSING

AQUACEL™ Ag+ Extra™ Dressings are antimicrobial primary dressings for use on wounds that are infected or at risk of infection. They are designed to manage the 3 key local barriers to healing - exudate, infection and biofilm.

739-413566	5cm x 5cm	10/Box
739-413567	10cm x 10cm	10/Box
739-413568	15cm x 15cm	5/Box
739-413569	20cm x 30cm	5/Box
739-413570	1cm x 45cm Ribbon	5/Box
739-413571	2cm x 45cm Ribbon	5/Box

AQUACEL® FOAM DRESSING

AQUACEL® foam dressing has a soft absorbent foam pad, an AQUACEL interface, and a waterproof/bacteria barrier. AQUACEL foam dressing is the only foam that has comfort, simplicity and the healing benefits of an AQUACEL Interface.

MEDIHONEY® DRESSINGS

MEDIHONEY® dressings contain 95% active Leptospermum Honey, which has been shown to have several properties which assist in promoting an optimal healing environment for chronic wounds and burns that have not progressed with basic, first line treatments. Through their high osmolarity, the dressings help to cleanse the wound and remove devitalized tissue. The dressings are designed to manage varying degrees of exudates.

PolyMem® has been successfully used in the healthcare setting for many years. No other single wound dressing combines four key wound healing capabilities in one easy-to-use dressing like PolyMem. Many healthcare professionals have experienced the benefit of having a primary and secondary dressing which also acts as an indicator and intelligent dressing on their shelves.

PolyMem® belongs to an innovative class of adaptable wound care dressings called QuadraFoam.

QuadraFoam dressings effectively cleanse, fill, absorb, and moisten wounds throughout the healing continuum. No other single wound dressing combines these four key wound-healing capabilities like PolyMem. Polymem comes in a variety of shapes, adhesive, non-adhesive and silver combinations below:

POLYMEM® NON-ADHESIVE PAD DRESSING

NE1® WOUND ASSESSMENT TOOL

- NE1™ Wound Assessment Tool helps reduce errors and promotes accurate wound assessment
- Standardizes wound documentation, which can be used for administrative review and can be of assistance in potential litigation¹.
- Drives appropriate reimbursement due to more accurate wound assessments
- Horizontal and vertical rulers provide consistent, precise wound measurements in cm and mm
- Clear, point-of-care instructions and use tips
- Full-color wound guide helps increase assessment validity
- Captures clinician's signature, date and patient data
- Adhesive back gently holds the disposable, single-use tool in place.

320-MSCNE1TOOLPK 10/Pkg

WOUND MEASURE RULER PAPER

These disposable paper Wound Measuring Rulers use centimeters and millimeters to document wound dimensions. Each contains ample space for recording patient name, date, and length, width and depth of wound. Perfect for documentation used in photos of wounds.

320-MSCEDURULER 250/Box

WOUND MEASURE KIT, STERILE

Sterile, single use kit containing sterile paper ruler and plastic depth guide. Depth guide has rounded edge and is ideal for packing deep.

068-DUP59901 100/Case

MEASURING TAPE, DISPOSABLE

Sterile, single use kit containing sterile paper ruler and plastic depth guide. Depth guide has rounded edge and is ideal for packing deep.

320-NON171336 24" 1000/Case
 320-NON171335 36" 1000/Case
 320-NON171333 72" 500/Case

PROPHASE® WOUND CLEANSER

- Prophase™ wound cleanser is a non-toxic, non-sensitizing wound cleanser that is non-irritating to the skin
- Contains PHMB as a preservative, well-known for its broad spectrum antimicrobial/antiseptic properties with no known resistances¹
- Low pH formulation
- Contains cocamidopropyl betaine, a gentle and effective surfactant
- Prophase is meant to cleanse, moisten and aid in debridement
- Offered in an 8 oz. spray bottle that will allow for an ideal level of spray pressure (AHRQ guidelines), as well as a 2 oz. squeeze bottle
- Indications: acute and chronic dermal lesions; stage I-IV pressure injuries; venous ulcers; leg ulcers; diabetic foot ulcers; post-surgical wounds; first and second degree burns; grafted and donor sites

320-MSC8002	60mL Bottle	12/Case
320-MSC8008	236mL Bottle	6/Case

SKINTEGRITY® WOUND CLEANSER

- Specially formulated to allow fast, thorough and gentle cleansing of wounds in all stages.
- Choose mist or stream delivery to loosen and remove protein and wound debris with a non-ionic surfactant.
- Non-cytotoxic.
- Trigger sprayer delivers a PSI of 8.6 at 3" spraying distance which falls within AHCPR guidelines of 4 to 15 PSI.

AttendsTM

Better protection for the individual, enhanced efficiency for the caregiver

Attends' product selection is designed to meet a wide range of incontinence care needs. Products are arranged in a convenient tier system, allowing for easy selection of the right product for varying incontinence needs. Leakage control, skin care, and comfort are the driving forces of performance in all tiers of attendance products.

How do I know if this is the right product for me?

	Light Pads 	Guards for Men 	
	Light Pads 	Insert Pads 	Under-garments 
	Shaped Pads 	Under-wear 	Briefs 
	Shaped Pads 	Briefs 	
	Shaped Pads 	Briefs 	
	Briefs 		

Choosing the right product will ensure the correct level of skin care, leakage control, and comfort. The Attends Total Incontinence Protection System[®] (T.I.P.S.) Chart is a guide through Attends products "at a glance" for quick and easy product selection.

The T.I.P.S. Chart arranges Attends body-worn products in a colour-coded tier system to show the different absorbency levels available. Products with six droplets are our most absorbent and highest performing, while products with one droplet would be for lighter incontinence needs. We can help find the right product for you!

Features & Benefits

Attends[®] products have a unique variety of features that make them the best choice for all incontinence needs.

Throughout this catalogue you will see the many features Attends Health care products have to offer. Many of them are represented by the list of icons on the following page. You will see their descriptions to better understand the features and why they are so beneficial. Attends[®] are now using an improved Odour Control Super-Absorbent Polymer (SAP) inside our Briefs and Shaped Pads!

PROSOURCE® TF LIQUID PROTEIN

ProSource NoCarb Liquid Protein combines the efficiency of hydrolyzed collagen and whey protein for a sugar-free, concentrated, low-volume, high-protein supplement. ProSource NoCarb Liquid Protein's hydrolyzed protein is broken down by enzymes into free amino acids and polypeptides that are easily digested and absorbed by the intestines.

- Designed for tube feeding administration to meet the protein needs for critical illness, protein energy malnutrition and protein deficiency with good GI tolerance and greater patient application
- 15g of protein per ounce

ENTRAFLO® (FORMALLY COMPAT®) NUTRITION DELIVERY SYSTEMS

When your nutrition delivery system is user friendly and dependable, everyone benefits. Nurses are more productive. Patients receive better care. And families are more confident in your facility. Our EntraFlo pumps and administration sets have features that make operation and formula administration easy.

ENTRAFLO® (FORMALLY COMPAT®) FEEDING PUMP

This clinically proven tube feeding pump is simple to set up and adjust.

- » Dual display windows let nurses monitor infusion rate, volume delivered and dose limit simultaneously
- » Automatically stops when dose is finished
- » Remembers flow rate, dose limit, volume delivered and accumulated volume
- » 8-hour battery life at 100 ml/hr, rechargeable while pump is operating
- » Simple to set up*

320-ENT199235... EntraFlo Feeding Pump Each

ENTRAFLO® (FORMALLY COMPAT®) FEEDING PUMP SETS

- Feeding sets compatible with Medline EntraFlo, Nestle Compat and Sentinel feeding pump
- Sets designed for use with feeding tubes only, both funnel and ENFit types
- Feature preattached stepped transition connector

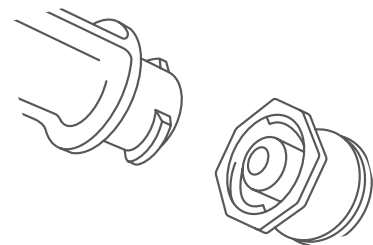

320-ENFIT70550... EntraFlo Safety Spike Plus Connector Tubing Set (for Entraflo Pump above) 30/Case
 320-ENFIT70552... EntraFlo 1000 ml Bag Tubing Set (for Entraflo Pump above) 30/Case
 320-ENFIT70554... EntraFlo 1000 ml Feed & 1000ml flush Bag Set (for Compat®-Duo® Pumps) 30/Case
 320-ENFIT70555... EntraFlo Spike Feed & 1000ml flush Bag Set (for Compat®-Duo® Pumps) 30/Case

The ENFit connector reduces the risk of tube feeding misconnections, helping enhance patient safety. It has a unique enteral-specific design that:

- » Doesn't allow administration sets, gastrostomy tubes and syringes to connect with any other connector for any other clinical use
- » Has a locking feature that secures the connection

To learn more, visit medline.com/enfit.

EDUCATIONAL PROGRAMS & TOOLS

Medline/Medical Mart has developed a series of educational DVD programs that targets the front line workers. All programs follow RNAO Best Practice Guidelines and comply with the MOH Standards and the Long-Term Care Act. These programs are to assist homes with their own programs focusing on Residents First. They will enable staff with knowledge, training and tools to support them in making quality improvements aimed at enhancing safety and promoting changes that make a positive difference in the well being of your residents.

- 
- Perineal Care
 - Preventative Skin Care and Pressure Ulcers
 - Continence Care and Bowel Management
 - Falls and Restraints
 - Oral Care
 - Catheter Care
 - Infusion Therapy Program

Our exclusive algorithm provides caregivers with a resident-centered, individualized toileting plan for each resident who is either continent or incontinent to meet the requirements of the Long Term Care Homes Act under the Continence Management Program.

The information gathered in this document maintains consistency, accuracy, eliminates other documents and saves valuable time for your staff. Your residents will also receive the appropriate treatment necessary for their own restorative care programs.

Joerns EASYCARE ELECTRIC LOW HEIGHT BED

The new Joerns EasyCare® beds provide best in class quality and features for a variety of your resident care needs while meeting your facility's budgetary concerns. The EasyCare adjustable low height bed has a proven grid-style sleep surface that provides security for resident positioning, air flow around the mattress system and easy to clean openings. The special Toroidal architecture engineering of the bed's steel frame is up to 30 times stronger than standard angle iron. The Easycare RAH features an UltraLock system as standard which allows the bed to be mobile at any height with an easy operating locking system. The Easycare RIL features an immobilizing leg system that keeps the bed stable on immobilized legs throughout all height ranges, but in the low height, it transfers to a caster system to allow the bed to be moved. Other features include ultra quiet DC motors, choice of side rail options and a 7" to 30" travel range. NEW 600lb weight capacity.

Optional 42" Width Extensions

Standard Baseboard Wall Bumper

Optional Footboard Control

SPECIFICATIONS

- Over-all Length 85.5" for 80"
- Over-all Width (Rails up) – 41" & 47"
- Deck Height Low Position – 7"
- Deck Height High Position – 30"
- Deck Surface – 35" x 80" and 42" x 80"
- Warranty - 4 yrs on electrical & mechanical, 15 yrs on frame

ENTHERMICS **TOWEL & BLANKET WARMERS** **Medical Systems**

WarmRight® technology uses multiple zone heating that monitors surfaces for safe temperature ranges. Efficient, balanced control allows for low energy consumption and minimal heat loss. Interior lighting casts a comforting blue glow with two (2) different intensity settings.

- Epoxy-coated interior surfaces
- 37-82°C (98-180°F) temperature range

Specifications:

- Single-chamber warming cabinet
- White epoxy-coated steel exterior casing and interior insert
- Single pane, energy efficient, e-coated glass window in door allows for inventory observation
- Easy, hands-free, push-button door release
- Door is fully gasketed and hinged on the right side of the unit
- WarmRight® technology utilizes multiple zone heating that monitors surfaces for safe temperature ranges
- DC350 includes a heated center shelf
- Furnished with four (4) 3/4" (19mm) non-skid rubber feet
- Optional casters available

Control:

- Electronic control
- Efficient, balanced heating system allows for low energy consumption and minimal heat loss
- Operates in Celsius or Fahrenheit
- Four digit L.E.D. display
- On/Off key
- Up and down arrow keys
- Actual temperature key
- Interior light key
- Built-in speaker for audible feedback
- Built-in button lock-out feature on control

Additional Features:

- L.E.D. interior lighting casts a comforting blue glow with two (2) different intensity settings, and off mode.
- In the event of a power failure the cabinet will remember its programming and begin to operate as before when power is restored.
- A warming shut-off system, separate from the electronic control, prevents overheating.
- Optional timer allows the user to program the control to automatically turn on and off at a selected time.

Available in three (3) different cabinet sizes:

PRIVACY SCREEN, 3 PANEL

Sturdy 1" diameter anodized aluminum tubing. Screens are flame retardant bacteriostatic vinyl. Four 3" hooded casters. Easy to maintain and clean.

- Overall height: 69"

320-MDS80450 Standard White. Each

PEDAL EXERCISER

- Stimulates blood circulation and increases muscle strength
- Built-in computer with LCD measures time, revolutions (reps), reps/minute and calories burned.
- Adjustable resistance
- Folds compact – easy to store under a bed or chair
- 2-in-1: use to exercise your legs or your arms!
- Tool-free setup

A19-3057 Each

EXERCISE FLOOR PADS

- Vinyl coated nylon cover is strong, mildew resistant, anti-bacterial and wipes clean with a damp cloth.
- 2" Thick Poly-urethane foam for a soft feel
- Mat is made with square side walls and is reinforced at all stress points for added durability.
- Reinforced handles can be used to carry and to store mat.
- Features Center-fold for easy handling and storage.

205-38-0200 4' x 6' Each

PARALLEL BARS WITH PLATFORM

- One piece stainless steel handrails with end bumpers
- Uprights are ultra-heavy, square, telescoping steel tubing
- All models feature width adjustment
- Platforms models feature 1-1/2" thick, hardwood, plywood bases with ultradurable, UV cured, satin finish

843-3-2010 Each

NEUROGYM® SIT TO STAND TRAINER

NeuroGym® Sit to Stand Trainer – Enables patients to actively train the sit-to-stand functional motion with little to no assistance from therapist. Handle bars, knee pad and counter weight system provides necessary assistance to enable virtually anybody to do this kind of training.

Key Benefits:

- Early weight bearing and active mobilization at hips and knees
- Significantly improves transfers
- Only requires 1 therapist

320-NGSTST \$4890.00 Each

NEUROGYM® BUNGEE MOBILITY TRAINER

NeuroGym® Bungee Mobility Trainer - An innovative mobility trainer that enables early balance and gait training. It provides graduated body-weight support while allowing safe, free mobility. It includes a height-adjustable padded seat with straps that secure the client in the device and a width-adjustable frame on rolling casters. Also includes a safety shoulder harness.

Key Benefits:

- Safe and effective static and dynamic balance training
- Safe and effective gait training
- Only requires 1 therapist

320-NGBMT \$6490.00 Each

NEUROGYM® PENDULUM STEPPER

NeuroGym® Pendulum Stepper - The NeuroGym Pendulum Stepper is a self-assisted trainer of reciprocal stepping that specifically targets the antigravity muscles that are so important for maintaining balance and gait.

Key Benefits:

- Trains functional reciprocal stepping motion
- No transfer required
- Small foot print, light, and mobile – can be easily moved around facility

320-NGEPSA \$2498.00 Each

I.V. STAND, MOBILE

- 5 wheel plastic base ensures stability.
- Ram's horn-style hooks hold solution containers and other items securely.
- Accommodates two pumps up to 14 lbs. each and two 3-liter bags of fluid.
- Tool-free push-button design makes adjusting easy.

320-MDS129CS Each

OVERBED TABLE WITH SPILL PROOF VINYL WRAP TOP

- 150 series features a high-quality horizontal grade Thermofoil top with a recessed edge to catch spills.
- Thermofoil has no seams or edges to delaminate and is one of the best healthcare surfaces for cleaning.
- Smooth operating, easy-lift spring mechanism for easy one-handed height adjustment.
- Two 2" locking casters and two non-locking casters
- Chrome steel construction base
- 70 lb. weight rating
- Two-year warranty on the top and mechanisms (excludes casters)

HYGIENE PULP™

Our Hygiene Pulp™ range is tested to ensure all products can be easily disposed of using all types of macerators for optimal environmental waste management.

Our unique packaging system includes the use of an outer carton as well as new appropriately sized inner bags. Together, they ensure that the products are well protected from the risk of contamination and moisture. They also provide significant convenience for users to handle and carry the products. In addition, the cartons are designed to reduce storage space and cost of transportation and minimize manual handling.

Hillrom™ WELCH ALLYN SPOT 4400 VITAL SIGNS MONITOR

The Spot Vital Signs 4400 Device delivers a digital, consolidated way to capture your patient's vitals with a simple touchscreen display. Quickly capture a full set of patient vital signs—including temperature, blood pressure, pulse rate and SpO2—right from the home screen. Our device utilizes integrated SureBP® and SureTemp® Plus technologies to provide fast and accurate measurements. With blood pressure averaging in the main workflow, we're helping you take and average multiple BP readings for improved hypertension screening and detection. Our latest vital signs solution can operate as a stand-alone device or connect with today's top EMR providers, so you can send information right to a patient's chart for reduced data entry errors. A Lithium ion battery is included, lasting up to 8 hours on a single charge for maximized device uptime in busy care environments. Multiple mounting options are also available so the device can fit easily into your existing workflow.

163-44XT-B	Digital BP & SureTemp® Thermometer	Each
163-44WT-B	Digital BP, Oximeter & SureTemp® Thermometer	Each

Hillrom™ WELCH ALLYN® CONNEX® SPOT MONITOR

Accurate readings across your patient population. The easy-to-use, vivid touchscreen display is perfect for the care giver.

- Help ensure accurate hypertension diagnosis without slowing down your work flow with unique SureBP® technology and blood pressure averaging.
- Research shows that more than half of patients could be misdiagnosed in a hypertensive category using the single-reading method.
- Provide SpO2 accuracy in challenging conditions including motion, thick fingers, dark skin tone and low perfusion with Masimo® SET® and Nonin® PureSAT® pulse oximetry technology.

163-71WT-B	Digital BP, Oximeter & Suretemp Oral Thermometer	Each
163-71WE-B	Digital BP, Oximeter & Pro-6000 Tympanic Thermometer	Each

Hillrom[™] WELCH ALLYN[®] CONNEX[®] SPOT MONITOR

- Accurate, automatic vitals sent to your EMR from the point of care for improved patient safety and clinical decisions.
- Reduce transcription errors and omissions by automatically transferring patient vital signs and other data directly into your EMR
 - Customizable fields to fully document at the point of care, eliminating the step of also entering some data in computers
 - LED lighting to help clinicians work in dark rooms without disturbing patients
 - Small work surface to improve ergonomics and ensure there's always a convenient place to document notes
 - Organization of accessories to help prevent tangling and sensor damage
 - Compatible with a wide range of EMR wireless networks
 - Masimo[®] Oximetry & Braun 6000 thermometer
 - Easy-to-use configurable touchscreen display

DIAGNOSTICS

Improve patient safety

- > Captures custom patient scores at the bedside to allow clinicians to document and track signs of patient deterioration
- > Allows the upload of up to three protocols the facility already uses—such as MEWS or other calculations
- > Displays facility's own recommendations based on patient scoring results to help guide clinicians through next steps and to make informed care decisions quickly

Partners in Care[™] Services for Connex Spot Monitor

- Welch Allyn offers a full suite of services to help protect your organization's investment and ensure clinicians have what they need to make informed patient care decisions.
- > Unique Enterprise Deployment Solution—to ensure your monitors arrive configured to your specification right out of the box
 - > Biomedical Service and Repair Training—to empower staff to maintain and repair devices in-house
 - > Support Programs—cover repair parts and replacement accessories for efficient, cost-effective device support
 - > Service Dashboard—enables proactive monitoring of connected devices, configuration creation, and remote deployment

Hillrom™ WELCH ALLYN® PROBP™ 2400 DIGITAL BLOOD PRESSURE DEVICE

The Welch Allyn ProBP 2400 is not a typical electronic blood pressure device. It is an affordable, professional device that you can trust to accurately measure your patients' blood pressures despite many common underlying circumstances.

White Coat Hypertension:

ProBP 2400 features a 3-Reading Average Mode to help confirm or refute an unexpectedly high reading.

Abnormal Readings:

Manual Reading Mode allows ProBP 2400 to serve as a digital gauge to facilitate traditional auscultatory measurement whenever an oscillometric reading is not indicated for a patient.

Irregular Heartbeats:

Irregular heartbeat detection provides data to help clinicians make decisions regarding additional testing that may be required.

GENIUS 3 TYMPANIC THERMOMETER W/ BASE

The Genius™ 3 tympanic thermometer allows for robust, accurate and dependable temperature measurements.

- Peak select technology records and analyzes up to 100 temperature measurements and selects the highest reading in 1-2 seconds
- Provides temperature measurement in 1-2 seconds
- Programmable display allows the thermometer to be customized according to hospital protocol
- Disposable, single-use probe covers designed to aid in the prevention of cross contamination
- Temperature reading displayed on LCD screen
- F°/C° Toggle button customizes temperature read outs to follow facility protocol
- Pulse timer allows for pulse and respiration monitoring on one single device
- Extended battery life - takes 15,000 readings on 3 AAA batteries
- Base of thermometer stores up to 32 probe covers
- Plastic housing allows for an IP22 rating for protection against dust and liquid ingress

SOFT-TOUCH FINGER PULSE OXIMETERS

- Small, lightweight finger clip sensor automatically takes readings when finger is inserted to help deliver precise reading in seconds
- Soft padding helps enhance patient comfort
- Oximeter features SpO2, pulse rate, pulse bar and plethysmograph
- Easy-to-read display with multiple viewing modes

320-HCSM70S Each

PULSE OXIMETER, HAND HELD

The H100B employs EDAN SpO2 technology which has the equivalent performance as the industry leaders'. Its pocket-size design makes it extremely suitable for spot-checks and ambulatories.

- Compact & lightweight
- LCD display
- Advanced SpO2 module with equivalent performance as the industry leaders'
- Real-time measurements display
- Plethysmogram display
- Trend table and trend graphs
- Long working-time on battery only
- Large storage capacity

C66-H100B Each

PULSE OXIMETER, NELLCOR® TECHNOLOGY, HAND HELD

- Durable and lightweight design
- Quantitative pulse strength bar on screen
- Fast, reliable SpO2 and pulse rate measurements
- Simple on/off control with auto shutoff to conserve battery life
- Monitor patients ranging from neonate to adult

820-WW1000EN Each

PULSE OXIMETER, MASIMO® TECHNOLOGY, HAND HELD

A Handheld Pulse Oximeter with Masimo SET® Measure-through Motion and Low Perfusion™ Pulse Oximetry. A lightweight, handheld device with user-configurable power up default settings

- Sleep Mode allows clinicians to disable audio tones and dim LEDs
- Up to 72 hours of trending memory
- Perfusion Index (Pi) is an assessment of the pulsatile strength at a specific monitoring site (e.g. the hand, finger, or foot), and as such Pi is an indirect and noninvasive measure of peripheral perfusion
- Signal I.Q.® (SIQ) provides an assessment of the confidence in the displayed SpO2 value
- FastSat® tracks rapid changes in arterial O2
- SmartTone beeps in sync with pulse, even under patient motion conditions

DOPPLER WITH 8MHZ VASCULAR PROBE

The 8 MHz vascular probe has a shallower focus and is best used for monitoring peripheral vessels. It is most commonly used for ABI (ankle/brachial index) studies, finding pedal pulses, wound care and locating hard-to-find pulses in peripheral vessels of diabetic patients.

VIEWBLADDER 10™ TABLET BLADDER SCANNER

ViewBladder 10 has been the standard of care in the long term care market. Long term care uses bladder scanning to assess post void residual. By accurately assessing post void residual bladder volume patient care is improved. This newest version of ViewBladder 10 alleviates the need to pause the scan and then use on screen measurement tools. Now the clinician simply starts scanning and when a bladder is detected the volume is displayed in real time.

Interson developed ViewBladder 10 as the easiest to use, and most affordable bladder scanner. This newest version makes ViewBladder 10 as easy to use as a flashlight. Simply place the wand on the lower abdomen, point the wand to the location of the bladder, tilt and tip until you have seen the largest cross section on the screen. When the system sees a valid image, it displays the volume. When you have seen the largest image or largest number, simply stop the scan and the system jumps back to the largest bladder image that was scanned.

The new ViewBladder 10, now with automatic bladder volume, enables clinicians to quickly assess post void residual with ease, accuracy and confidence. Catheterization is done on patients who need to be catheterized and avoided on patients that don't need to be catheterized.

HOW IS VIEW BLADDER 10 DIFFERENT FROM OTHER BLADDER SCANNERS?

- Less expensive, lower cost of ownership, accurate and reliable ·
- Reduces unnecessary catheterization ·
- Reduces rates of upper and lower urinary tract infections ·
- Reduces spending on absorbent products and other incontinence care costs
- Standard: GP 3.5 MHz USB Probe
- ViewSonic Tablet and Software, 1 Year Warranty

3M LITTMANN® CLASSIC III STETHOSCOPE

Right out of the box, it lives up to its name. The Classic III stethoscope is the latest version of the stethoscope that helps millions of medical professionals to auscultate effectively. It brings design, materials, and technology to the Littmann stethoscope series used by clinicians around the world. The Classic III stethoscope offers you:

-  High acoustic sensitivity for performing general physical assessments.
-  Tunable diaphragms on both the adult and pediatric sides of the chestpiece.
-  Single-piece diaphragm that's easy to attach and easy to clean because the surface is smooth without crevices.
-  Next-generation tubing with improved resistance to skin oils and alcohol for longer tubing life. Less likely to pick up stains.*

Using a Classic III stethoscope demonstrates what's important to you as a medical professional: quality and achievement.

Features:

Tunable technology is a 3M invention that lets you shift between hearing high and low frequency sounds by simply adjusting how much you press on the chestpiece.

Soft-sealing eartips give you a comfortable fit and an excellent acoustic seal; they snap tightly onto the eartubes for safety.

Open bell stays clear of dirt and debris by keeping it covered with the small diaphragm.

Adjustable headset lets you easily set the tension for head size and comfort just by squeezing or pulling apart the eartubes.

No natural rubber latex or phthalate plasticizers are used in the tubing or any other component—to help protect human health and the environment.

Made in the USA. We apply rigorous process and quality controls to every Littmann brand stethoscope. You'll always get a durable, dependable, clinical tool that will serve you for years to come.

AED+PLUS® SEMI-AUTOMATIC DEFIBRILLATOR

ZOLL's AED Plus® features Real CPR Help®, a tool that is able to actually see what you are doing and provide feedback to help you do it well. Audio and visual prompts help you rescue with confidence and clarity unmatched by any other automated external defibrillator (AED).

- Not pushing hard enough? It will tell you when to push harder.
- Pushing hard enough? It will say, "Good compressions."
- Not pushing fast enough? A metronome will lead you to the right rate.
- It will even show you the depth of each compression. In real time.
- Not yet started? The AED Plus will tell you again to get started.
- Compressions stopped? It will tell you to continue.

470-22600010102011060 Each

AED+PLUS® FULLY AUTOMATIC DEFIBRILLATOR

When the Fully Automatic AED Plus detects a shockable heart rhythm, it delivers the shock on its own, with no rescuer interaction required. No one needs to push a button. Once the heart analysis begins and the Fully Automatic AED Plus prompts, "DON'T TOUCH PATIENT," if a shock is needed, it will be delivered automatically after a brief verbal countdown. Research shows that safety is not compromised when rescuers use a fully automatic rather than a semiautomatic AED.

BRODA® AUTO LOCKING GLIDER CHAIR

BRODA's Auto Locking Glider provides exceptional comfort and safety. The Auto Locking Glider provides a gentle gliding action to help create a calming, soothing effect for agitated individuals. The gliding action is excellent for Alzheimer's and Dementia as it helps reduce the need for wandering.

BRODA's unique Comfort Tension Seating® system provides pressure redistribution and air flow for increased sitting comfort and support.

Designed for Fall Prevention, the Auto Locking Glider begins to glide once the resident sits in the chair, and stops gliding once the resident begins to vacate the chair. It also features a caregiver lock to prevent unwanted gliding.

It is ideal for long-term care, assisted living and acute-care facilities for:

- Residents requiring Low to Moderate levels of nursing care.
- Alzheimer's and dementia residents unit within a facility
- Ambulatory residents who can benefit from mild exercise.
- Great for patient rooms, and lounge areas within a facility

Available in 5 different colours (Blackberry w/grey frame, Burgundy w/grey frame, Charcoal w/grey frame, Sapphire Blue w/grey frame and meteor w/ brown frame) and different seat widths and back heights.

Health o meter® Professional PORTABLE DIGITAL CHAIR SCALE

The Health-O-Meter 594KL was designed to weigh patients in hospitals that need a chair scale to be accurately weighed. When someone is disabled, conventional scales simply do not do the trick, and a digital chair scale is more comfortable for the patient and provide stability and accurate results. The 594KL is a brand new economically priced digital chair scale.

- Operating functions (LB/KG Conversion, LB/KG Lock Out, BMI, Zero, Tare/Pre-Tare, Hold/Release, Reweigh, Recall, Auto Zero, Auto Off)
- Easy to Use - Clearly marked buttons make it easy to operate
- Moveable Arm & Footrest - The flip-arm and footrest allows for easier patient access and patient comfort
- Sturdy Construction - The sturdy construction of this scale provides a stable base that does not shake

EDUCATIONAL PROGRAMS & TOOLS

Medline/Medical Mart has developed a series of educational DVD programs that targets the front line workers. All programs follow RNAO Best Practice Guidelines and comply with the MOH Standards and the Long-Term Care Act. These programs are to assist homes with their own programs focusing on Residents First. They will enable staff with knowledge, training and tools to support them in making quality improvements aimed at enhancing safety and promoting changes that make a positive difference in the well being of your residents.

- Perineal Care
- Preventative Skin Care and Pressure Ulcers
- Continence Care and Bowel Management
- Falls and Restraints
- Oral Care
- Catheter Care
- Infusion Therapy Program

Our exclusive algorithm provides caregivers with a resident-centered, individualized toileting plan for each resident who is either continent or incontinent to meet the requirements of the Long Term Care Homes Act under the Continence Management Program.

The information gathered in this document maintains consistency, accuracy, eliminates other documents and saves valuable time for your staff. Your residents will also receive the appropriate treatment necessary for their own restorative care programs.

Ritter® M9D STEAM STERILIZER

The M9D UltraClave® Automatic sterilizer with manual door is a fast, user-friendly and reliable machine that ranks higher in customer satisfaction than other similar units on the market.

- Load it, Set it, Forget it
- LCD Display
- Pre-Programmed controls for different cycle parameters

550-M9D-042 Each

Tuttnauer® VALUEKLAVE STEAM STERILIZER

The Valueklave 1730 will satisfy all of your basic sterilization needs at an economical price. The compact size (7" chamber) makes it a perfect primary unit for small offices or a second autoclave for larger practices. The fast cycle time and heated drying delivers a quick turn-around for wrapped or unwrapped instruments. The simple controls and easy closing door make this unit a breeze to operate. High speed and reliability are built into every Valueklave 1730.

449-1730 Valueklave Each

Ritter® M9 AUTOMATIC STERILIZER

The M9 autoclave couldn't be easier and is time tested for reliability. You simply load it... set it...and forget it. Select your cycle and the time is set for you. Press "Start" and the M9 fills with the correct amount of water. Once the sterilization process is complete, the door opens automatically and quietly to dissipate the steam, giving you fast drying time for your instruments. Features include:

- Exclusive automatic-opening door for ease of use and a quick drying time
- Steam-Flush Pressure Pulse Air Removal System ensures proper steam penetration
- Self Program Controls enable you to create different cycle parameters to meet specific instrument processing needs
- Pouch rack included with unit
- LCD Display for easy view of indicators
- Optional thermal printer for documentation

EASY-TO-INSTALL™ ANTI-WANDERING SYSTEMS

Installs in 3 easy steps!

Up and running the day you get it!

You can install it yourself!

FALL SAFETY

DON'T LET THEM WALK AWAY!

This Easy-to-Install Anti-Wandering Door System functions with just a door alarm and a resident wristband. When a resident wearing a wristband attempts to wander too close or through the doorway, the door monitor alarm will alert audibly and visually (alarm will sound and bar will flash). Caregivers easily silence alarm using the Remote, Wall-Mounted Reset Button. Door Bar Systems can be expanded using the optional Smart Station Large-Facility Central Monitoring Unit, which is capable of sounding an alarm at a central nurses' station and will display both the doorway location and the identity of the resident who triggered the alarm! Affordable for Facility or Home use. (AC adapter included)

CORDLESS® LANDING MAT ALARM SYSTEM

Unique, patented landing mat works as a bed exit alarm as well as a padded fall injury prevention floor pad. This system has no cords and therefore eliminates tripping hazards from loose cords at the bedside. A wireless transmitter inside the landing mat sends a signal to the CordLess® Fall Alarm Monitor to provide immediate audible and visual notification alerts for caregivers. The CordLess® Landing Mat contains Patented Technology from Smart Caregiver, and is the only one of its kind on the market!

FALL SAFETY

THERAPEUTIC HIP PROTECTORS

Rally Active™ Therapeutic Hip Protectors are made with far infrared (FIR) infused fibers, clinically proven to reduce hip pain, improve circulation, and ease soreness. The proprietary compression fabric causes a natural increase in blood circulation that provides comfort and support while healing. Hip protector product includes two snug fit, removable protective pads for protection from injury due to falls.

- Hypoallergenic-Latex, rubber and Neoprene free
- FDA-certified pain relief through increased FIR ray absorption
- Eases pain associated with Osteoporosis and Arthritis
- Breathable bamboo fabric does not cause skin irritation - ideal for those with sensitive skin
- Open Perineum Hip Protector designed to work in conjunction with incontinence briefs

BEDSIDE FALL SAFETY FLOOR MAT

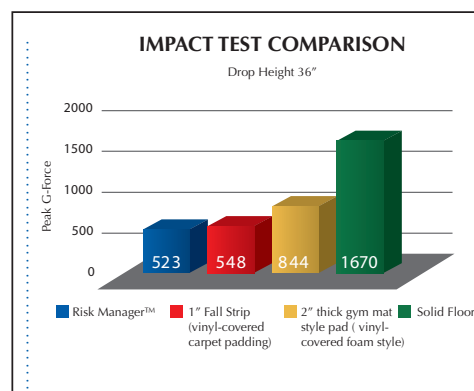

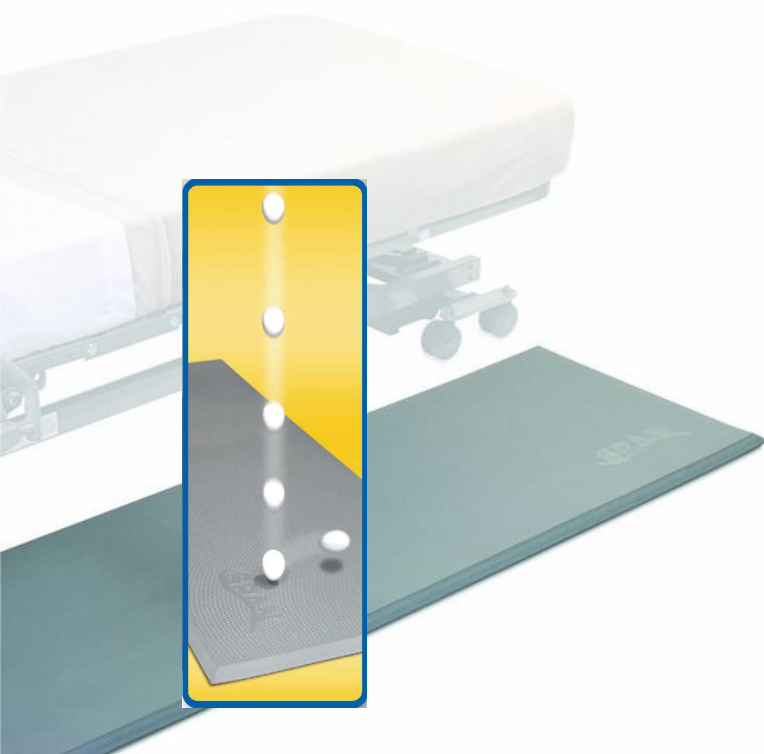

- Full 70" length provides maximum coverage alongside bed.
- Tough and lightweight - Mats are constructed from high quality molded Polyurethane foam inner core (210kgs/cubic meter) to provide maximum absorption and rebound to reduce impact in the event of a fall.
- Passed 5 foot "Egg Drop Test" - an egg was dropped from 5 feet above the mat without damage.
- Low profile with tapered edges allow equipment such as overbed tables or patient lifts to roll over easily.
- Anti-slip bottom netting keeps the mat secure to help prevent accidental tripping.
- Embossed non-slip PVC leather look top is not only attractive but extremely durable and puncture resistant.
- Non-slip pattern helps minimize slipping and is easy to clean with mild soap and water.
- Available in two colors; Brown & Gray.

POSEY® BEVELED EDGE BEDSIDE FALL SAFETY FLOOR MAT

- Wipe clean cover
- Non-skid bottom
- Tri-fold design with convenient carrying handle
- One-inch thick foam with low profile tapered edges

287-6023 72" x 38" Each

SIDE RAIL BUMPER PADS

These wipeable pads are efficient and safe. All bumper pads are 1" thick and covered in a waterproof, flame retardent and easily cleanable cover. Has velcro fasteners that wrap around the top of the rail to pad top & side of rails.

C24-VM-3015-NVST 14" x 30" x 1" Pair

C24-VM-3010-NVST 14" x 60" x 1" Pair

POSEY® GAP FILLERS

Helps eliminate gaps between the mattress and the bed headboard, footboard and/or side rails.

- Sewn-in zippers allow gap fillers to be connected together.
- Durable foam construction covered in wipe-clean vinyl.
- 35"L x 6"H x 2"D (89 cm x 15 cm x 5 cm)

287-5715 Pair

POSEY® SOFT RAILS DOUBLE BOLSTER WITH VINYL COVER

An alternative to bed side rails, the Posey soft rails help prevent lucid patients at risk from falls from rolling out of bed, while allowing sufficient space for patient comfort. The adjustable bolster attaches with hook and loop and can be positioned to accommodate individual resident needs or may be completely removed for patient transfer. The soft rails easily attach to the bed with quick-release buckles. May be used with side rails raised or lowered.

287-5716SC Pair

POSEY® ROLL GUARDS WITH VINYL COVER

An alternative to bed side rails, the Posey roll guard allows easy bed entry and exit, while helping to protect lucid patients from falling out of bed. The roll guard easily attaches to the bed frame with quick-release buckles and gives patients a maximum sleeping surface. The roll guard may also be used as a pressure relieving positioning aid to help increase patient comfort. The vinyl inner pillows may be removed and wiped clean with liquid disinfectant.

287-5700SC Pair

GAIT/TRANSFER BELT, COTTON WEBBING

Assists with the safe transfer and ambulation of patients.

- Helps prevent caregiver back injuries
- Constructed from heavy weight 2" cotton webbing
- 60" Length

103-9505P-60 Each

GAIT/TRANSFER BELT, WIPEABLE

- Medline's wipeable gait belt helps with mobilizing and transferring patients
- Polyurethane-coating makes it easy to wipe clean after use
- Plastic buckle for easy width adjustment

320-MDT828203BWP Each

POSEY® GAIT/TRANSFER BELT

Helps prevent caregiver back injuries and assists in safe patient transfer and ambulation.

- Extra wide soft nylon belt provides greater contact area with patients.
- Sewn-on handles provide multiple vertical and horizontal grasping points.
- Quick-release nylon buckle for easy application/removal
- Machine washable

TRANSFER DISC

An ideal way to transfer anybody, at home or in an institution. Position the disc as shown in front of the person to be transferred. The disc has a very low profile with a non slip surface top and bottom for safety. The disc rotates on graphite pads so there are no ball bearings to get gritty and prevent free rotation.

331-14A061 15" Diameter Each

PVC TRANSFER BOARDS

- Slightly textured, strong boards allow for quick and effective patient transfers
- Made of high density polyethylene
- Easy to clean

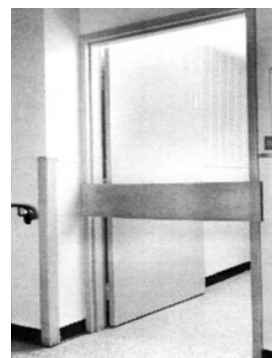

320-PVCM600A 71" X 23.5", w/8 handle Each

WANDER-GUARD® DOOR STOPS

Wander Guard fits a standard 44" door and comes in a bright yellow colour to provide a visual barrier to residents. Available in magnetic or velcro. Custom sizes available.

548-WG002M	Magnetic	Each
548-WG001V	Velcro	Each

TRANSFER POLE, FLOOR TO CEILING MOUNT

Designed to assist residents transferring safely. Adjusts from 7' to 10' in height to fit various ceiling heights. Perfect for the bedside, toilet or bathtub. Available in black or white finish.

A72-ST1100-B	Black	Each

TRAPEZE & STAND

The Trapeze unit is an important patient room accessory designed to help the user change positions while in bed and to aid in transferring from bed to chair. The unit has a wide range of height adjustments and handbar positions for patient comfort and maneuverability. The handbar attaches to the bed with tool-less assembly for added convenience.

Features:

- Heavy-gauge, octagon steel construction
- Easy assembly, no tools required
- Wall bumpers and padded mounting brackets protect bed ends and wall surfaces
- For use on model no. 7714P floor stand
- Safe working load of 168 lb.

684-7740P	Trapeze	Each
684-7714	Trapeze Floor Stand	Each

SANIPULL® BULK PREMIUM™ PULL SYSTEM:

Sanipull® is a cleanable replacement pull system for switches commonly found in healthcare facilities, care homes, and public toilets, on lights, alarm stations, nurse calls, and patient lifts. Sanipull replaces unsanitary cords with a user-friendly vinyl ribbon profile pull and is a proven solution in over 1000 North American facilities (client list at www.Sanipull.com). It can be easily attached to any switch with an adaptor or removable Sanipull spring clip.

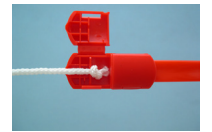

The major benefits of using Sanipull cleanable vinyl pulls in your healthcare facility are:

- Proactive prevention of facility acquired infection in conjunction with good housekeeping practices.
- Economic retrofit pull solution that is durable and quick to install.
- Protects fixtures from over force damage.
- Disinfects easily with standard cleaning procedures and all disinfectants.
- Optional anti-ligature modified ribbon helps mitigate injury and death.

SANIPULL® BULK RIBBON KITS

Bulk Rolls of Sanipull ribbons available in different lengths, different colours and with or without anti-ligature holes. Kits come complete with adapters and clip options

SHEAR COMFORT XD1900 MEDICAL SHEEPSKIN PRODUCTS

Pressure Smart XD products are made from 100% Australian wool and offer a new level of pressure sore, bedsore and decubitus ulcer prevention. Because of the wool fibres ability to contour and cushion the body, Pressure Smart XD reduces resistance to movement and friction. Wool absorbs up to 30% of its weight in water without feeling wet, is a key factor in preventing ulcer development. Warm in winter and cool in summer. Wool is naturally anti-microbial and antibacterial. All Shear Comfort products are machine washable in water up to 80°C for disinfection and cross infection control.

SHEAR COMFORT® SUPERIOR OVERLAY

A full bed overlay. Suitable for long term patients where Shear, Friction and pressure are a concern. 75cm x 150cm.

514-002633.....Each

SHEAR COMFORT® PRESSURE CARE ASSIST

A 70cm x 30cm strip of sheep skin covering a width of a single bed with linen flaps to tuck under the mattress. For a person with the possible risk of ulceration to the sacrum, heels, shoulders or head.

514-002169.....Each

SHEAR COMFORT® CHAIR CUSHION

Can be used directly on a seat or back of a standard wheelchair. Each cushion comes with Velcro straps to hold it in place around cushions or wheelchair canvasses. Buy 2 for complete seat & back protection as shown.

514-002152.....Each

SHEAR COMFORT® CALF PLATE PROTECTOR

Designed to ease pressure areas for wheelchair patients. Sheer Comfort Calf Plate Protectors are adaptable for a range of applications.

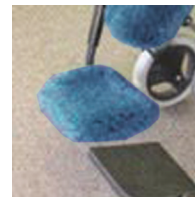

514-002138.....Pair

SHEAR COMFORT® FOOT PLATE PROTECTOR

Sheer Comfort Foot Plate Protectors are adaptable for a range of wheelchairs.

514-002126Pair

SHEAR COMFORT® ELBOW PROTECTOR

The elbow is a common problem point for pressure ulceration and with its limited blood supply is slow to repair. Good for use in a bed or in a wheelchair.

514-002664Pair

SHEAR COMFORT® HEEL PROTECTOR

20% of all pressure ulcers occur at the heels. The Sheer Comfort Heel Protector protects the heels wherever the feet are placed.

514-002275Each

SHEAR COMFORT® PALM PROTECTOR

Protect where contractures of the fingers press the nails into the palms of the hands. Also offers moisture absorption reducing the likelihood of maceration. Fits either right or left hand.

514-003074Each

SHEAR COMFORT® 1L SHAMPOO

Formulated to protect the softness and therapeutic advantages of Shear Comfort with the inclusion of an antibacterial which protects against bacterial growth, eliminating cross infection and preventing odours. Also contains Tea Tree Oil, an effective deterrent against dust mites - a known allergen to asthmatics.

CURAD® KNITTED HEEL & ELBOW PROTECTORS

- Slip-on protector has a double layer of foam to protect pressure points
- Seamless, elastic mesh knit stretches and conforms to body while keeping skin cool
- Washable
- Universal

320-MDT823340.....Pair

HEEL PROTECTOR, SYNTHETIC FUR, DELUXE

- Protects heel from contact with sheets.
- Bottom openings provide necessary ventilation.
- Well-designed closure holds protector firmly onto heel.

320-MDT823290.....Pair

SPENCO® FOOT PILLOW

Every Spenco® Silicore® Padding Product is made with Spenco® Silicore® Fibers, unique siliconized hollow core shafts that don't mat down, retain their loft and allow air flow. The silicone coating lubricates each fiber to reduce friction and shear force while preventing moisture penetration or retention. The breathable cotton/polyester fabric is fully washable, dryable, and radio-translucent. Spenco® Silicore® Padding Products pass the requirements described in 16 CFR Part 1632 Standard for the Flammability of Mattresses and Mattress Pads, (FF-72, Amended). Bed, Full Wheelchair and Chair Pads are also reversible with a moisture resistant nylon on the other side.

535-31-559-00.....Pair

ELBOWLIFT® SUSPENSION PAD

Protects the Olecranon and the Olecranon Bursa from Friction Burns and Pressure Ulcers Relieving elbow pressure and preventing friction is a challenge. The Elbowlift® Suspension Pad meets that challenge by elevating and cushioning the elbow, protecting the sensitive olecranon and olecranon bursa. The fabric cover allows the elbow to move across the sheets comfortably.

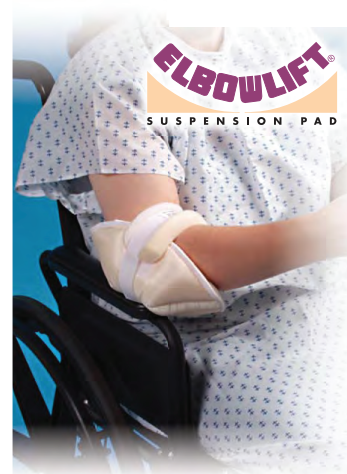

Adjustable, cushioned strap wraps around arm to keep pad in place

Smooth backing for improved patient movement

Center hole relieves pressure and functions as a placement guide

EDEMAWEAR® TUBULAR COMPRESSION SLEEVES

EdemaWear® tubular elastic compression device provides longitudinally focused compression without occlusion, to encourage free lymphatic and venous return and the reduction of edema.

Edemawear is easy to apply and its comfortable open construction allows for air and moisture circulation for maximum comfort. It is washable, reusable and may be cut to fit.

- Promotes the reduction of edema and lymphedema
- Latex Free
- Cool, conformable and comfortable
- May be used alone or in combination with bandages
- A practical alternative to compression stockings and wraps
- Non irritating nylon and lycra construction

HEELSAFE™ DVT HOSE LEG SLEEVES

The innovative window design keeps the pressure off the heel, while allowing you to quickly and easily inspect the heel in a fraction of the time. The soft, ultra-stretch fabric makes them comfortable and easy to put on and take off. HeelSafe not only guards against serious complications like deep vein thrombosis (DVT) and the re-occurrence of venous ulcers, but also prevents swelling and fatigue.

Available in sizes S through XXL in both thigh-high and knee-high, HeelSafe are comfortable enough for all-day wear, while the moisture wicking yarn keeps the skin dry and cool.

HeelSafe is indicated for:

- Patients at risk for DVT or the re-occurrence of venous ulcers
- Patients at risk for or with a history of heel pressure ulcers
- Those with limited mobility, or who sit, stand, or travel for long periods of time.

HeelSafe can be machine washed in warm water (delicate). Do not wring, iron or use bleach.

PREVAMATT® DELUXE FOAM SUPPORT MATTRESS

The PrevaMatt Deluxe features Visco Memory foam in the slope heel section and die cut high density foam in the torso and head sections. Incorporates a sloped heel section to redistribute pressure in the delicate heel and lower leg area. Firm perimeter foam provides added stability during resident transfer and helps resident safety by preventing entrapment between mattress and rails. Strategically located cuts in mattress base promotes easier flexing during bed frame articulation which reduces wear and tear on mattress/cover and prolongs mattress life. Easy to clean cover comes standard in four way stretch material. Available with optional built up side bolsters. Designed for moderate to high risk patients. All mattresses are flame and fire retardant and meets or exceeds the new CAN/ULC-S137 standard.

SPECIFICATIONS

PRIMA-GEL® DELUXE MATTRESS

The Prima-Gel Deluxe Mattress combines the comfort and pressure reduction of foam therapeutic mattress with the pressure relief and temperature regulation of gel. In this unique process our therapeutic foam core mattress is covered with a 3/4" pillow top gel honeycomb topper in the torso and foot section of the mattress to deliver unparalleled comfort, temperature control and wound prevention. The gel topper distributes the pressure more evenly over these regions resulting in better pressure interfaces. The honeycomb design of the gel allows for better temperature control around the sensitive pressure areas of the body. The Prima-Gel Gel mattress has an incorporated high density foam perimeter to aid in transfers as well as to prevent bed entrapment. The special Recovery 5 Stretch cover provides fluid protection as well as a softer feel and stretch compared to regular nylon covered mattresses.

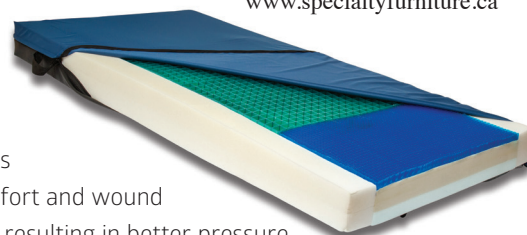

- 3/4" gel honeycomb comfort topper in torso and foot sections regulates temperature reducing perspiration and provides immersion for pressure reduction as well as increased comfort
- Dual density foam core with sloped heel zone to relieve pressure in sensitive foot region
- Firm perimeter border Allows for easier transfers and a firm supportive edge to meet all bed entrapment guidelines
- Recovery5 cover ensures the mattress is protected from fluid while still allowing maximum immersion with its stretch capabilities

PRIMA-GEL® ELITE MATTRESS

The Prima-Gel Elite Mattress combines the comfort and pressure reduction of foam therapeutic mattress with the pressure relief and temperature regulation of gel. In the critical torso section of the Prima-Gel Elite mattress we incorporate a larger and deeper honeycomb gel design to provide maximum pressure relief and temperature control for Stage I-IV pressure ulcers. The sensitive heel section of the Prima-Gel Elite mattress is covered with a 3/4" pillow top gel honeycomb topper to deliver unparalleled comfort and wound prevention. The gel topper distributes the pressure more evenly over these regions resulting in better pressure interfaces. The honeycomb design of the gel allows for better temperature control around the sensitive pressure areas of the body. The Prima-Gel Gel mattress has an incorporated high density foam perimeter to aid in transfers as well as to prevent bed entrapment. The special Recovery 5 Stretch cover provides fluid protection as well as a softer feel and stretch compared to regular nylon covered mattresses.

- Full Torso Section large honeycomb gel pad for maximum pressure relief, comfort and temperature control in critical pressure area of the mattress
- 3/4" gel honeycomb comfort topper in foot section provides immersion for pressure reduction as well as increased comfort
- Dual density foam core with sloped heel zone to relieve pressure in sensitive foot region
- Firm perimeter border Allows for easier transfers and a firm supportive edge to meet all bed entrapment guidelines

P.R.O. MATT® PLUS CONVERTIBLE FOAM THERAPY SURFACE

Mattress Features and Benefits

- Non-powered mattress replacement converts to alternating pressure therapy with addition of optional control unit
- Four-zone system (head, shoulder, torso and foot) inner air core reproduces the surface pressure profile of a therapeutic low air loss mattress
- P.R.O. Technology valve maintains optimal air pressures in each therapy zone for superior pressure redistribution regardless of patient weight and profile
- One-inch viscoelastic topper enhances pressure redistribution and patient comfort
- Surrounding firm perimeter provides stability during patient care & patient safety by eliminating gaps between frames and siderails
- Horizontal air tubes are superior to other manufacturers vertical tubes as they provide better pressure relief & do not kink if bed is latched
- Self-calibrating design needs no manual inflation
- Nylon therapy pad is standard, waterproof & is a low friction and low shear surface

Clinical Indications

Pressure Redistribution: Stage I – IV Pressure Ulcers*; Rehabilitation; Burns; Neurology; Dermatology; Amputations
Pain Management: AIDS; Arthritis; Oncology

*In the non-powered mode, the P.R.O. Matt Plus is indicated for prevention through Stage II pressure ulcers. With the addition of an optional control unit and based on individual patient assessment, the P.R.O. Matt Plus may be used for the treatment of uncomplicated stage III or IV pressure ulcers.

Maximum Weight Capacity*: 500 lbs

Warranty: Mattress: Five-years, non-prorated; Cover: Two-year

SPFPROMATT80.....Promatt Plus Convertible Air SurfaceEach
SPFES2.....ES2 Control Unit.....Each

The Dermafloat® APL is a combination alternating pressure and low air loss therapeutic mattress replacement system designed for the treatment and prevention of pressure ulcers up to Stage IV. The Dermafloat® LAL is a true low air loss only mattress with higher air flow circulation than the APL

Mattress features:

- Twenty individual cells help to evenly distribute resident's weight and maximize pressure relief
- Integrated low air loss delivery system: Up to 40 liters airflow per minute when the alternating cycle is complete or unit is in static therapy mode
- Two-way stretch therapy pad—low shear and low friction, treated with an antibacterial and antifungal agent and is vapor permeable
- ChairRails risk management side air bolsters (Removable if not needed)
- Mattress size: 36" W x 80" L x 8" D
- Maximum weight capacity: 350 lbs.

Control unit features:

- Three alternating cycle times (APL only)
- Eight comfort control settings maximizes resident compliance and promotes healing
- Fowler Boost inflates sacral section enhancing pressure relief when head of bed is elevated at 30° or greater
- Automatic panel lockout to avoid unwanted or unintended adjustments
- Audible power failure alarm with reset
- CPR quick deflation

HERRINGBONE FLANNEL SPREADS

55% Cotton • 45% Poly Blend

- This Herringbone spread is extremely cost effective due to durability.
- Retains body heat well because of the tight weave.
- Is soft and comfortable because it's napped on both sides.
- Low processing cost, lightweight and 55% cotton / 45% polyester.

320-MDTSB4B30ANT	70" x 108"	Antique Rose	12/Case

THERMAL SERPENTINE BLANKET

- The tight weave makes it "snag-less" meaning fewer replacements and greater warmth.
- Better durability compared to traditional thermals saves you money over time.
- White blanket is made of 55% cotton / 45% polyester
- Measures 66" x 90"
- 2.3oz weight

320-MDTTB4B23WHIR	24/Case
-------------------	---------

SOFT-FIT® KNITTED BED SHEETS

55% Cotton • 45% Poly Blend

- Soft-Fit® provides exceptional patient comfort while potentially reducing laundry costs.
- These soft sheets provide maximum resident comfort and minimize the chance of skin breakdown.
- The cotton yarns are taken through a “combing” process to ensure that we use the strongest and finest yarns.
- Since these sheets are knitted instead of woven, they come out of the dryer virtually wrinkle-free with no need for ironing.
- Now constructed with Spandex in the binding to provide an even better fit to the mattress.
- All Soft-Fit knitted sheets have a 14” gusset.

------------------------------------	---------

QUICK-DRY® REUSABLE UNDERPAD

- Face fabric on underpads quickly wicks fluid and is dry to the touch in minutes
- Unique blend of fibers in the soaker layer help absorb and distribute fluid more effectively
- Breathable polyurethane film helps block fluid, but allows moisture vapor to escape, creating a cooler, drier and more comfortable patient environment
- Bonded construction thins the pad for less bulkiness with no decrease in absorption
- Lays flat with no bunching or rolling

320-MDTIU8SEFBLU 34" x 36"	Blue Backing	Each
320-MDTIU8SEFBLU 34" x 36"	Blue Backing	24/Case

SWIM BRIEFS

These swim briefs allow water to easily pass through while keeping solids securely contained and out of the pool. With quick drying nylon and a soft terry liner for comfort, the wrap style design makes it easy to change while the adjustable waist with added ties ensures a secure fit every time. Worn alone while swimming and with a diaper if needed when out of the water.

289-2180 Small, 22"-28" Waist	Each
289-2185 Medium, 30"-36"	Each
289-2190 Large, 38"-44"	Each

BATH & HAND TOWELS

CLOROX URINE STAIN & ODOUR REMOVER

Clorox® Urine Remover's versatile formula removes urine from porous surfaces notorious for trapping urine odors, including porous grout. It also handles stains and odors on soft, absorbent surfaces like carpet and mattresses — all without bleach.

C35-01693 946mL Bottle 9/Case

FRESH NATURALS ODOR ELIMINATOR

- The plant-based formulation treats a broad spectrum of odors without leaving behind artificial masking agents or chemical fragrances
- Fresh Naturals products use technology to bond with and neutralize odor molecules resulting in an odorless facility
- An ideal choice for the healthcare industry

TOUCH-TEST® SENSORY EVALUATOR

Touch-Test® Sensory Evaluators are individually calibrated within a 5% standard deviation of a predetermined level of force. The filament bends when peak force threshold is reached. The unique handle easily opens to a 90° angle for testing. When closed, the Sensory Evaluator can be carried safely in a pocket or carrying case, protecting the filament when not in use. Finger indentations on the handle provide a firm, comfortable hold. The Sensory Evaluator handles are marked with the corresponding colour-coded pressure level.

EDUCATIONAL PROGRAMS & TOOLS

Medline/Medical Mart has developed a series of educational DVD programs that targets the front line workers. All programs follow RAO Best Practice Guidelines and comply with the MOH Standards and the Long-Term Care Act. These programs are to assist homes with their own programs focusing on Residents First. They will enable staff with knowledge, training and tools to support them in making quality improvements aimed at enhancing safety and promoting changes that make a positive difference in the well being of your residents.

- Perineal Care
- Preventative Skin Care and Pressure Ulcers
- Continence Care and Bowel Management
- Falls and Restraints
- Oral Care
- Catheter Care
- Infusion Therapy Program

Our exclusive algorithm provides caregivers with a resident-centered, individualized toileting plan for each resident who is either continent or incontinent to meet the requirements of the Long Term Care Homes Act under the Continence Management Program.

The information gathered in this document maintains consistency, accuracy, eliminates other documents and saves valuable time for your staff. Your residents will also receive the appropriate treatment necessary for their own restorative care programs.

Redefine vitals documentation with the market leader that's been doing it for 100 years.

The Welch Allyn Connex® family of vital signs devices wirelessly transmits residents' vital signs from the point of care directly into your EMR—to help staff be more efficient and assure the accuracy of patient information for more informed care decisions.
